Work 5 stripes of type A.

**Stripe B**—Ch 92, 1 d c in 8th st from hook, 1 d c in each of the next 3 sts of chain, \* ch 2, skip 2 sts, 1 d c in each of the next 4 sts; repeat from \* across, ending with an open mesh (29 meshes on chain). *2nd row*: ch 3, turn, 2 d c in next space, 1 d c on next d c; continue to alternate 1 closed and 1 open mesh, and end with a closed mesh. *3rd row*: 29 open meshes. *4th row*: 1 closed mesh, 27 open meshes, 1 closed mesh. *5th row*: 29 open meshes. *6th row*: 1 closed mesh, 5 open meshes; 1 popcorn mesh and 1 open mesh, alternately, until there are 9 popcorn meshes, 5 open meshes, 1 closed mesh. *7th row*: 29 open meshes. *8th row*: 1 closed mesh, 6 open meshes; 1 popcorn mesh and 1 open mesh, alternately, until there are 8 popcorn meshes; 6 open meshes,

Continue in this way to follow stripe B chart until there are 8 full diamonds and 17 rows on next diamond (to correspond to part diamond at beginning of B-stripe); end with 5 rows the same as the 5 rows at beginning (in reverse order). Make 4 stripes of type B.

TYPE A

TYPE B

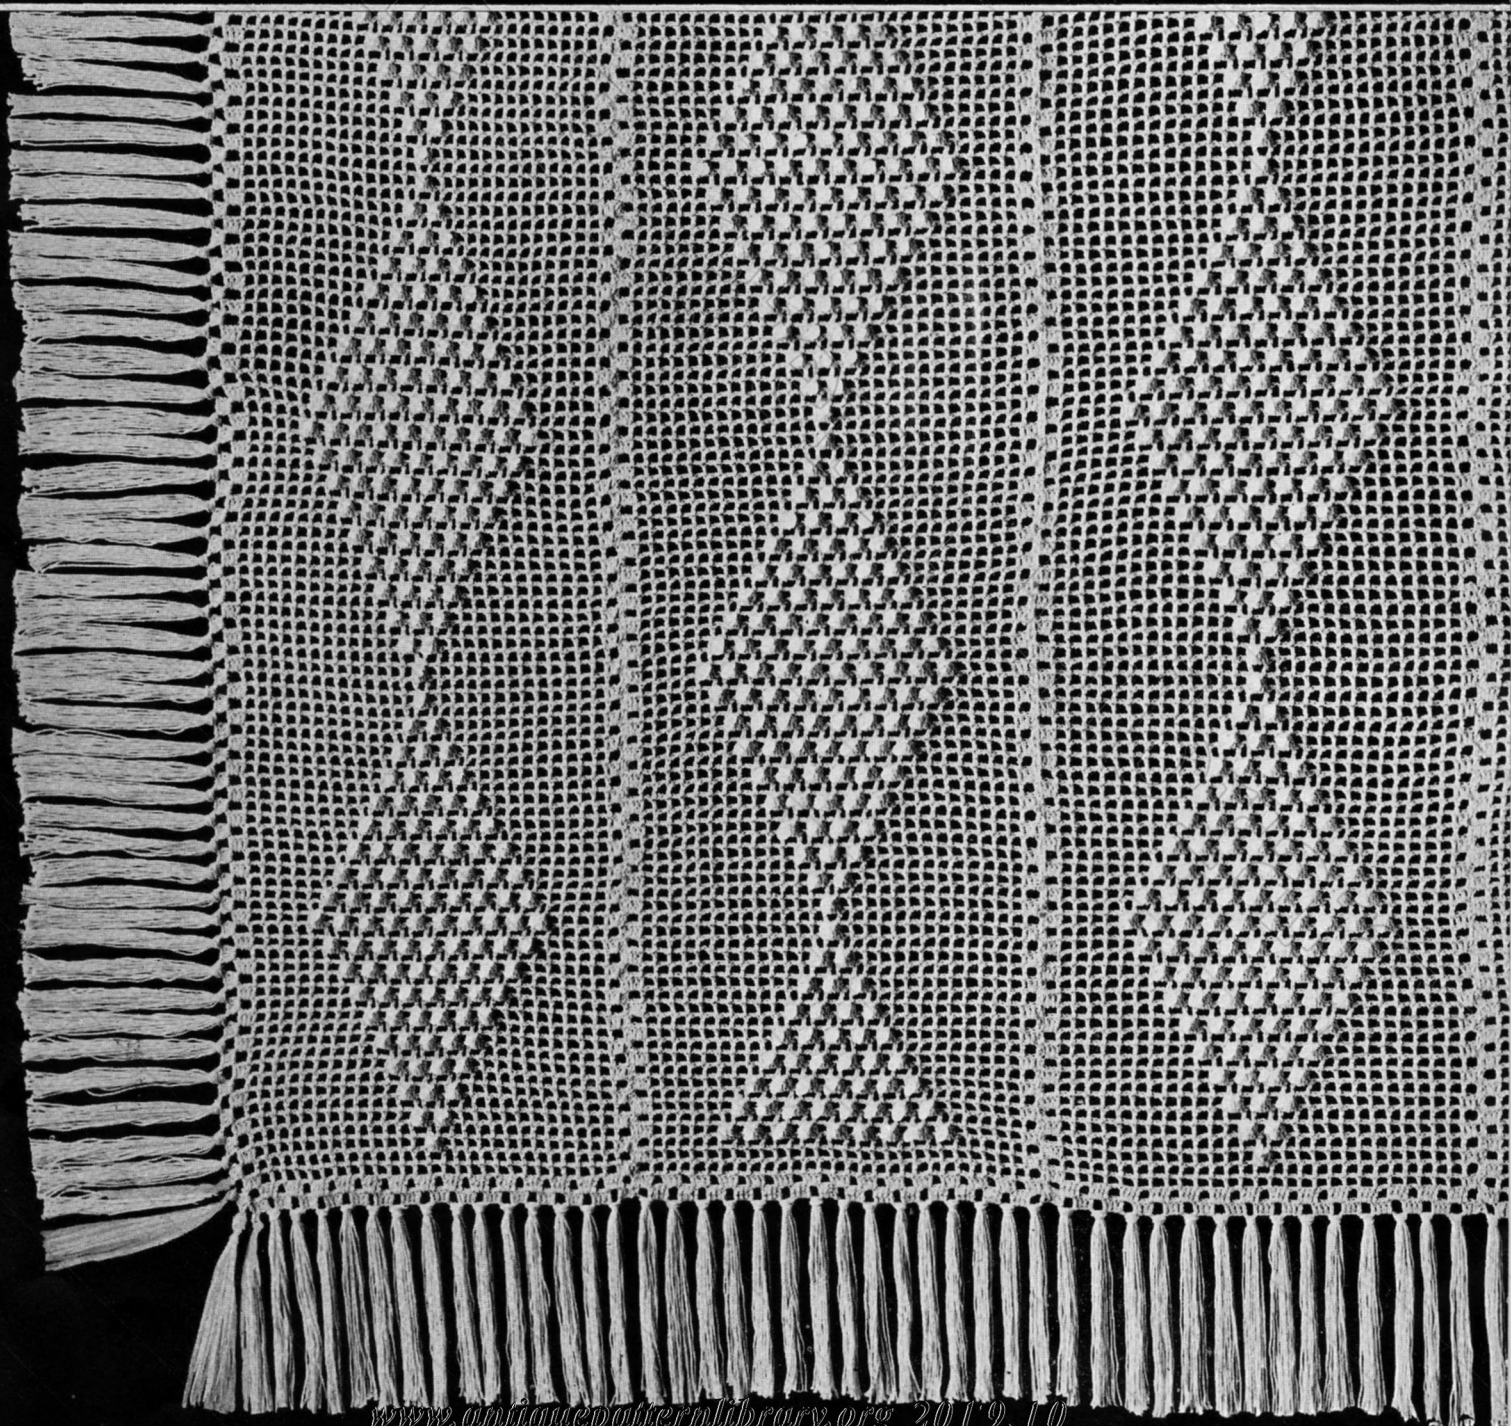

Sew stripes together, alternating type A and type B stripes, and having an A stripe at each end, as shown in illustration. The closed meshes on edge of a stripe will come opposite the open meshes on edge of next stripe; the pattern along seams will thus be the same as the pattern at beginning and end of stripes. Finish sides of bedspread with a row of alternating closed and open meshes, as follows: beginning at lower right corner, work 1 d c in corner st, ch 2, 1 d c in same place as the first d c of next row, 2 d c under d c on edge of 2nd row, 1 d c in top of this d c, ch 2, 1 d c in top of turning chain in next row; continue in this way to work an open mesh on edge of a closed mesh, and a closed mesh on edge of an open mesh, along the entire side of bedspread;

**IMPORTANT NOTES**—Quantity given with each set of directions is for a double size Bedspread.

Single or smaller size Spreads will require proportionately less. Key of abbreviations is given on page 15.

• *Section of Filet Popcorn Bedspread No. 424* •

This exquisite pattern works up into a Bedspread of rare charm. It is made in easy strips which may be joined at your leisure. The soft raised effects of the Filet Popcorn motif makes this spread unusual.

work same row on other side; the pattern on sides of spread will now be the same as the pattern at ends.

**Fringe**—Cut thread over a 5-inch cardboard; tie a fringe of 8 strands in every open mesh on sides and lower edge of bedspread.

Each large medallion should measure 5½" in diameter.

**Large Medallions**—Ch 6, join with a slip st into a ring.  
**1st round:** ch 3, 23 d c in ring, join with a slip st in top of ch 3 at beginning of round (ch 3 counts as 24th d c). **2nd round:** ch 6, \* skip 1 d c in 1st round, 1 d c in next d c, ch 3; repeat from \* around, end with ch 3. 1 slip st in 3rd st of ch 6 at beginning of round (12 spaces in round). **3rd round:** \* ch 7, 1 s c in 2nd st from hook, 1 d c in each of the next 3 sts, 1 tr (treble: thread twice around hook) in each of the last 2 sts of chain, 1 s c in top of next d c in 2nd round; repeat from \* around (12 petals in round). **4th round:** slip-stitch to point of first petal (6 slip sts); \* ch 8, 1 slip st in top of next petal; repeat from \* 11 times, ending with a slip st in slip st at beginning of round. **5th round:** 1 s c in each of the 8 sts of next chain, \* skip the slip st at point, 8 s c on next chain; repeat from \* to end of round (96 sts in round). Do not join, but from now on work 1 s c in each st, *taking up back thread only* of st below, until there are 5 rounds of s c (see illustration). **10th round:** 1 slip st in next st, ch 6, \* skip 1 st, 1 d c in next st, *taking up 2 threads* of st, ch 3; repeat from \* around, ending with ch 3, 1 slip st in each of 3rd and 4th sts of ch 6 at beginning of round (48 meshes in round). **11th round:** ch 3, skip 1 space, 1 d c in next space, ch 4, 1 s c in top of d c just made, ch 4, 1 s c in same place as last s c, ch 4, 1 s c in same place as last s c (i.e. 3 picots in top of same d c). \* ch 3, 1 s c in next space, ch 3, 1 d c in next space, 3 picots in top of d c just made; repeat from \* around (24 picot groups in round), ending with ch 3, 1 s c in slip st at beginning of round; fasten off. Complete the 11th round in only 1 medallion; on 2nd medallion work 20 picot groups in 11th round, then join this medallion to 1st medallion, as follows: make the first picot of next group, ch 1, insert hook from wrong side in 3rd ch of center picot of a group on edge of first medallion. draw thread through both loops on hook, ch 2, 1 s c in top of d c. to complete the picot; make the 3rd picot, ch 3, 1 s c in next space, ch 3, 1 d c in next space; join the center picot of next group to center picot of next group on first medallion; join next picot group in same way to next group on first medallion; finish round without further joinings, and fasten off. In 11th round of 3rd medallion join 3 picot groups to 4th, 5th and 6th picot groups from the last joining on 2nd medallion, leaving 3 picot groups free between joinings; these 3 picot groups will later be joined to the center medallion which unites 4 large medallions. Join a 4th large medallion in same

way to 3 picot groups of 3rd medallion, leaving 3 picot groups free between joinings on 3rd medallion; work 3 free picot groups on 4th medallion and join the next 3 groups to 3 groups of 1st medallion, leaving 3 picot groups of that medallion free between 2nd and 4th medallions. These 4 medallions now form a square with a large space in center; each side of this space has 3 free picot groups. The space is filled with a small center medallion.

**Center Medallions**—Ch 6 and follow directions for the first 2 rounds of large medallions. **3rd round:** ch 3, 1 d c under ch 2 of next space, ch 4, 1 s c in top of d c just made, join next picot to center picot of first free group on one side of space between large medallions; make a 3rd picot in same d c, ch 3, 1 s c in top of next d c in 2nd row, ch 3, 1 d c in next space; join center picot in each of the next 2 groups to each of the next 2 groups of same large medallion; join the next 3 groups of center medallion to the 3 groups of next side of space (next large medallion); continue in this way to join 3 picot groups of center medallion to 3 groups of 3rd and 4th large medallion; join with a slip st at end of round and fasten off. The center medallion will thus have no free picot group (see illustration). Continue in this way to join medallions until bedspread is of desired size (15 medallions in width and 19 medallions in length).
