# TOYS

**o  
BIG**

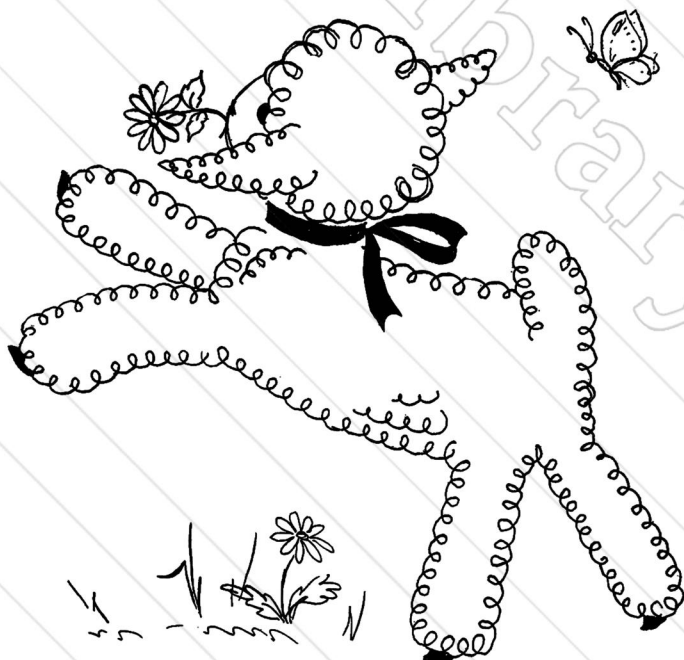

**IS A TOY?**

Just as large as you make it with the material suggested. For instance, the largest horse on the opposite page has no more stitches than the smallest horse. The thread used determines the size of your finished product.

Cecilia Vanek, our designer, has had each toy made up in different size threads. If your dealer is out of one type of thread at the time of your purchase, you may still make the toy of your choice with any of the American Thread Company products.

If you have any needlework problems, write to Cecilia Vanek. She will be only too glad to assist you.
