The New Priscilla Does EVERY Kind of Work

Each New Priscilla Sewing Machine is equipped, without extra charge, with a full set of "easy-to-use" attachments which enable you to do every kind of plain and fancy sewing, including Hemming, Quilting, Binding, Tucking, Braiding, etc. Stitching done on the New Priscilla is even and elastic and so perfectly formed that the work is a delight to behold.

Guaranteed for a Lifetime

The New Priscilla is an *honestly* built machine. From beginning to end such solid, substantial, high-grade materials are used that when we place our latest model in your home, a *written Lifetime Guarantee goes with it*. This means that if at any time during your whole life you discover a flaw or imperfection in any part of your machine, we will make the matter right without a penny's expense to you.

Our Direct-By-Mail System Saves You Nearly Half

Many a dealer would charge you at least \$35.00 for a sewing machine as good as the New Priscilla, and plenty of machines no better have been sold for \$50.00. Yet our price is from \$10.00 to \$25.00 *less* than others because *we sell Direct-By-Mail*. We have no expensive Branch Offices to maintain, we employ no high priced Branch Managers, have no Agent's Salaries and Commissions to pay, nor any of the hundred and one other expenses which add heavily to the cost of a machine. Our Direct-By-Mail method eliminates all this expense and *you* get the saving.

The New Priscilla Contains All Latest Improvements

Many of the improvements in the New Priscilla are usually found only in higher priced machines. Auto-

matic Drop Head and Lift, Lock Stitch, Ball Bearing, Automatic Shuttle Ejector, Self Threading Shuttle, Automatic Tension and numerous other special features make the New Priscilla the sewing machine of "no regrets."

Easy Running and Noiseless

The New Priscilla is equipped throughout with Ball Bearings, making it the smoothest and lightest running machine possible.

This Splendid Machine Can Be Had as a Premium

If you do not wish to pay cash for a sewing machine we have arranged a Special Offer whereby you can get the New Priscilla in return for sending us just a few subscriptions for The Modern Priscilla. Dozens of busy mothers send us a large number of subscriptions every month, and if *you* have just a little spare time you can do the same and secure a beautiful New Priscilla Sewing Machine without its costing you a single penny. Write the Manager of the Sewing Machine Dept. for full information regarding our Premium Offer.

What Women Say:

A woman in Vermont has used one of our machines for nearly 20 years and says she has never had a particle of trouble. Another woman says: "I simply *must* write you this note to tell you how delighted I am. My New Priscilla has just arrived and it is a perfect beauty."

FREE Send for Demonstration Book. We can't begin to tell you all the interesting facts about the New Priscilla in such a small space, but if you need a sewing machine send us your name and address and we will mail you some additional information about sewing machines in general, and the New Priscilla in particular, that will mean *money in your pocket*. A post-card will do. Mail it now. Address **Manager Sewing Machine Dept., THE PRISCILLA NEEDLEWORK CO., 87 Broad St., Boston, Mass.**

We Employ no Agents—YOU get the Commissions

Absolute Satisfaction Guaranteed Or Your Money Refunded

ANY goods purchased from us that are not entirely satisfactory may be returned within ten days, and we will at once return the purchase price or exchange for other goods, as preferred. We want customers ordering by mail to be satisfied, and to have as many privileges as when buying at a store.

In comparing prices, please remember that quality should be compared also. Satisfaction guaranteed or your money returned.

HOW TO ORDER

In ordering goods, please observe the following rules and all mistakes will be avoided:

Write your name in full, giving name of street and number, or post-office box, or rural delivery, and write plainly. Also state how much money you enclose. If goods are to be sent to other than permanent address, please give the home address as well. Also state name of article, the number and price, and color when necessary.

ABOUT DELAYS

Wait a reasonable time before writing us about a shipment. We have many letters daily asking why orders have not been shipped, and find that nine out of ten have gone forward and will reach their destination before our reply can be received; or we find that the delay has been caused by the name and address having been left off the order, or by similar errors over which we have no control.

Should you find it necessary to write us, however, state when the goods were ordered, what you ordered, how much money was sent, and in what form, whether money order, stamps, cash, or otherwise. Your complaint will have our prompt and careful attention.

C. O. D. orders must be accompanied by at least one quarter amount of value. The balance will be collected by the Express Company, including return charges. Better send cash with order and save yourself this expense.

HOW TO SEND MONEY

We recommend Money Orders

There are three safe and convenient ways to send money by mail; they are as follows:

First, Postal Money Order, purchasable at most Post-offices and from your Letter Carrier; Second, Express Money Orders, which are issued by all leading Express Companies; Third, Bank Drafts, which can be purchased from your local bank.

Send all amounts for 50 cents or more by one of these three ways.

Postage stamps are difficult for us to dispose of, but as a matter of convenience and favor to our customers we will accept them in small amounts at their full value, denominations of one and two cents preferred. Please don't send stamps unless absolutely obliged to.

Currency sent by ordinary mail is at the sender's risk. Never send coins loose in a letter. Put in coin holder or wrap in tissue paper. For safety, register all letters containing currency.

We pay postage on all orders, but we will not be responsible for goods lost in the mails unless you send 10 cents extra and order the package registered, or take advantage of the insurance plan explained below.

RETURNING GOODS BY MAIL

Don't, under any circumstances, return a package by mail without putting your full name and address on it, else we will have no means of knowing to whom it belongs.

Insuring Mail Packages

A NEW form of insurance enables us to guarantee safe delivery of mail packages at less than the cost of "registering." On all orders amounting to \$5.00 or over, we will insure packages free of charge.

A charge of 5 cents will be made for insuring packages of less than \$5.00 value. If you want us to insure such a package, tell us so when you send the order, and add five cents to your remittance. This small sum will insure your package against loss in the mails.

Get Your Fancy-Work Supplies Without Cost

The Coupons above may be used for the purpose

Do you know that you can get all your Fancy-work Supplies, Stamped Materials, Embroidery Flosses, Yarns, Patterns, and accessories—*without spending a penny?*

Each year we give thousands of dollars worth of Fancy-work Merchandise to our friends, in return for subscriptions for *THE MODERN PRISCILLA*. Many ladies find this plan so attractive that they do not pay a cent for Fancy-work Supplies from one year's end to another.

Briefly our offer is this:

For each and every Priscilla subscription that you send us at the regular price (unless it be for yourself or a member of your immediate family, in which case see below), we will GIVE you 50 cents' worth of any Priscilla Fancy-work Supplies you may select.

The subscriptions that you send us may be either new or renewal, and we even give 50 cents' worth of materials on your *own* subscription provided it is sent with one or more others at the same time. Materials *cannot* be had free with your own subscription, or a subscription for a member of your family, if sent *alone*.

On Canadian subscriptions \$1.25 must be sent with each order. Subscriptions for Foreign countries must be accompanied by \$1.50 for each.

It has been demonstrated times without number that Priscilla subscriptions are easy to get. Every woman who enjoys any kind of Fancy-work, or who is interested in making the most of her home, enjoys *THE MODERN PRISCILLA*. The first afternoon that you have a little spare time, take a copy of the magazine and call on a few of your friends. Without a doubt, you will find, as others have done, that Priscilla subscriptions can be secured with very little effort—an effort for which you will be well repaid and by which your friends will be really benefited.

How to use this Coupon

As soon as you secure a subscription, send it to us together with the proper remittance, which is \$1.00 in the U. S. A. or possessions and \$1.25 in Canada. At the same time make out a list of the Fancy-work supplies you want, to the value of 50 cents. Then cut out one of the Coupons at the top of the page and enclose it with your list and the subscription. When your letter reaches us, the Coupon will be accepted *the same as cash*, and your Fancy-work Supplies will be shipped immediately.

If you have *two subscriptions* enclose *two coupons* which will entitle you to one dollar's worth of supplies. Three subscriptions mean three coupons and \$1.50 worth of supplies, and so on.

If you have not enough Coupons to pay for the goods you want, enclose the number you have, and send us the balance in money.

Selection of patterns, materials, or miscellaneous supplies may be made from this new catalog, or from any previous catalog, or from any issue of *THE MODERN PRISCILLA*.

Made-up Underwear

STAMPED, READY-TO-EMBROIDER

Any woman who is at all proficient in needlework can now have dainty hand embroidered lingerie for only a *fraction* of the usual cost and with *very* little work.

The underwear, illustrated on this and the next five pages, is all *made-up*, Ready-to-Embroider. The designs are stamped on the garments and all that is needed is the *embroidery*.

When that is finished, the garments are *ready-to-wear* without further work.

Priscilla Made-up Underwear is dainty, cool and comfortable, and most *moderate* in price. Each garment is made of fine, soft Nainsook and is tailored as nicely as you could wish. *French seams throughout.* The hems are neatly turned and stitched, while the beading at the top of ruffles and flounces is of excellent quality and neat design. Buttonholes are neatly worked and buttons sewed on securely. Each garment is complete in every respect—*ready-to-wear* as soon as the simple embroidery is finished.

Instead of buying ordinary underwear, order a set of these Priscilla garments and spend a little time embroidering them. You will then have a set of lingerie of which you may well be proud.

Nine Different Designs to Choose from

There are nine different designs for embroidery shown on these underwear pages and they are all *interchangeable*. For example, the French and Eyelet design "H," on Combination No. 401, shown to the left, can be had stamped on *any other garment shown in this section*.

Thus you can select the design you like best and have it stamped on any garment or garments you order.

DESIGN J. COMBINATION CORSET COVER AND SKIRT, No. 406

Made of fine nainsook, with Hamburg beading at the waist, and finished with buttons and buttonholes. Sizes, 34, 36, 38, 40, and 42. Stamped with any design shown on the underwear pages, and 12 skeins of embroidery cotton, \$1.60.

No cutting or fitting is required with Priscilla Underwear, as each garment is carefully made to a model size.

Suggestions for Working

Where scallops appear in the illustrations the edges are to be buttonholed, the eyelets for ribbon are to be worked, and all the embroidery is to be done in either Eyelet or French work as the design requires. If a lace edge is preferred to the buttonholed scallops, the stamped scallops may be easily trimmed off, the edge hemmed and lace whipped in place, as shown in Gown No. 125, on page 11.

DESIGN I. ENVELOPE CHEMISE, No. 203

Made of fine nainsook, and lower edge trimmed with Valenciennes lace. *Sizes, 36 38, 40, and 42.* Stamped with any design shown on the underwear pages, and 10 skeins of embroidery cotton, \$1.60.

A narrow Valenciennes edging may be sewn under the scallops after they are buttonholed, making a dainty finish to correspond with the trimming of the lower edge.

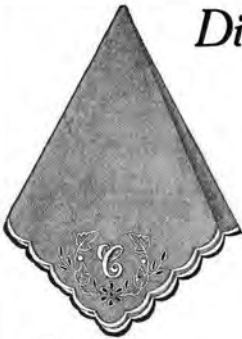

DESIGN A. PRINCESS KNICKERBOCKER, No. 509

Made of fine nainsook. *Sizes, 36, 38, 40, and 42.* Stamped with any design shown on the underwear pages, and 12 skeins of embroidery cotton, \$1.35.

All the embroidery on our made-up underwear is to be done with white cotton floss which we send with the stamped garments. A very fine needle should be used to produce the best results.

PRICES TO THE LEFT

Embroidery Stitches

Simple Outline is made from left to right, putting the needle forward a short distance along the line of stamping and bringing it up at the end of the last stitch. Always keep the

thread on the same side of the line.

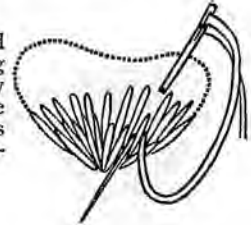

Satin Stitch may be padded or not. It consists of regular smooth stitches taken close together side by side across a space, either straight across or on a slant. This is the most important stitch in French Embroidery.

Satin Outline is made over a single run thread, or over simple outlining, if a more cordlike effect is desired. After running the padding thread, work over and over with very short, close stitches, keeping these stitches at right angles to the stamped line.

This stitch is used in French embroidery.

Kensington is the long and short stitch used for covering a surface and which is usually employed when shading is to be done. The illustration shows how the stitches dovetail together.

Chain Stitch is a form of outlining which is also used for filling large spaces. It is really a succession of buttonhole stitches made along a single line, putting the needle back into the last stitch each time and working towards one.

Snail Trail is made from right to left along a single line of stamping. The thread is held on the line while a short buttonhole stitch is made over it.

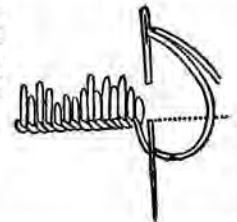

Buttonholing may be padded or not and is worked from left to right. Holding the thread down with the left thumb, a stitch is taken across the space to be covered, and the loop formed when the thread is drawn up makes a purling on the edge of the space.

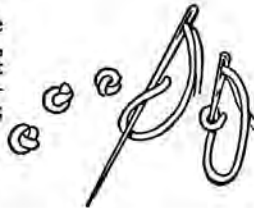

Running Outline is made by running a row of short stitches along the line of stamping and then going back, putting the needle under every stitch and always putting in under from the same side.

Long and Short Buttonholing is made like simple buttonholing except that the stitches are of unequal length. This stitch is used when an irregular effect is desired.

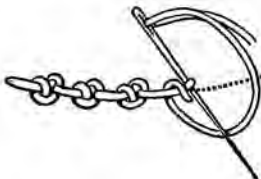

Wallachian is a form of buttonholing used for working flowers, leaves, etc. The stitches are worked from left to right, taking them from the mid-vein or centre and bringing the needle out on the edge, always keeping the purling on the edge.

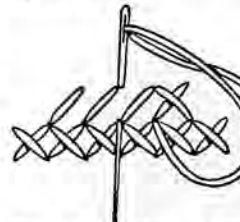

French Knots. Bring the thread out on the right side, then, holding it with the left hand, wrap once, twice, or several times around the needle; insert the needle near where it was brought up and hold the thread taut while the needle is carried through.

Balkan Stitch is made by bringing the thread up on the left of the line, then inserting the needle on the right and taking a slanting stitch, bringing it up on the line above the thread. The thread is caught down with a short stitch and the needle is again brought up on the left.

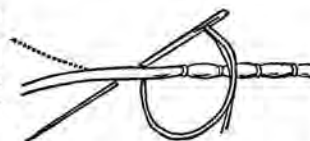

German Knot is made from left to right. Take a short tight stitch at right angles to the stamped line, put a loose simple stitch and a loose buttonhole stitch into the first stitch. Repeat at intervals.

Cross Stitch consists of two short stitches crossing at right angles. The top threads should all run in the same direction.

Couching consists of sewing down a cord or several strands of thread by taking short stitches across at regular intervals.

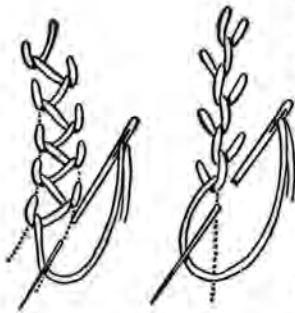

Darning consists of parallel rows of short, regular stitches; the stitches of each row alternate with those of the last. It is used for filling large spaces or backgrounds.

Embroidery Stitches

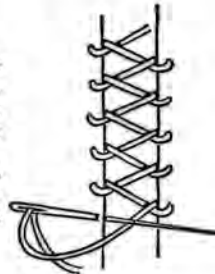

Briar Stitch and Feather Stitch are both forms of buttonholing made towards the worker. The first is made along two lines by taking a short buttonhole stitch first on one line and then on the other. Feather stitch is made with short, slanting buttonhole stitches taken alternately on the left and right of a single line.

Shadow Embroidery consists of cat stitch worked on the wrong side and showing on the right as two continuous lines of short stitches. The work progresses from left to right, and the needle always points to the left.

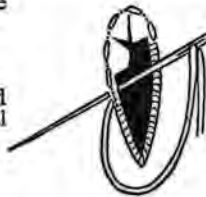

Honeycomb Stitch, which is used for filling irregular spaces or backgrounds, is a simple loose buttonhole stitch worked into the preceding row and the fabric beneath. The illustration shows the method of working very plainly.

Fagoting, usually employed for joining two edges, consists of buttonhole stitches taken on first one edge and then the other, letting the work progress towards one. When two bands are fagoted together, they are first basted on stiff paper and then the stitches added.

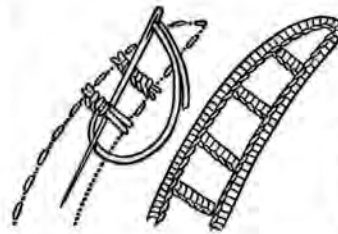

Lazy Daisy or Bird's-Eye Stitch is another form of buttonholing. Long loop stitches, beginning and ending at the same place, are caught down with a short stitch in the end of the loop.

Long Eyelet. Run a thread around the stamped line, slit the space, roll back the edges on the wrong side and whip over and over with short close stitches.

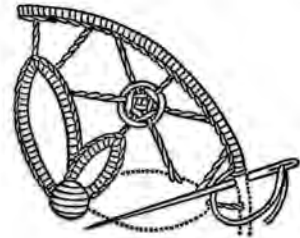

Round and Shaded Eyelets are made in the same way that long ones are made except that in the shaded eyelet longer stitches are taken on one side to give the heavy edge. Some padding may be used.

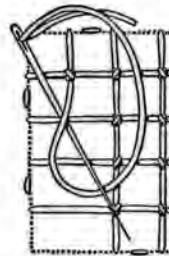

Italian Cut Work consists of long narrow spaces buttonholed on the sides, with buttonhole bars across and the material cut away beneath. The bars are put in before the edges are buttonholed.

Roman Cut Work. Run the edges and put in the twisted bars and woven wheels, then buttonhole all the edges very narrowly and cut away the linen from beneath the lace stitches or bars.

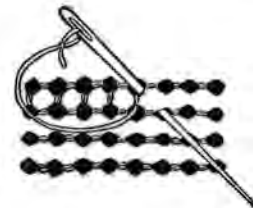

Bullion Stitch. Bring the thread up at the base of the petal, insert the needle at the apex and bring the point out at the base again; wrap the thread a number of times around the needle and draw through, then carry down at the apex.

Relief Embroidery is made separate from the linen except at the starting point and at the finish. It consists of fine, close buttonholing worked back and forth, widening and narrowing to conform to the desired shape.

Filet. Parallel threads are carried across the space, then, at right angles, other threads are knotted to the first as illustrated. The edges are buttonholed and the linen beneath cut away.

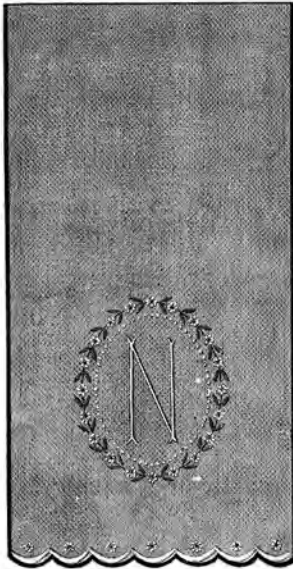

Rambler Rose. This stitch should be worked with several shades. A knob is built for the centre, then the stitches taken around and around as illustrated, keeping the flower raised three-sixteenths of an inch above the material.

Punched Work is done with fine thread and a large needle, the thread being drawn tightly. The illustration shows the method of working, after the space has been gone over in one direction and the work has been turned.

Richardson's Wash Silks

"Good silk is the first requisite of good work."

During many years Richardson's embroidery silk has maintained its reputation of being a high-grade silk.

Richardson's embroidery floss is pure silk in gorgeous shades with rich oriental lustre, and is guaranteed fast dye.

We carry the two kinds of Richardson's silks most extensively used.

FILO. This is a very fine silk thread, used for solid embroidery and fine outline work. It is the finest thread made, and the exquisite gradation of colors allows the worker to produce the most artistic effects. It is especially adapted to floral designs on linen. 5c per skein; 50c per dozen skeins.

GRECIAN FLOSS. This is a more tightly twisted and coarser silk than Filo, and is used for heavier solid work. It is also used for couching, outline, chain-stitch, lazy-daisy and other stitches where a single coarse thread is needed for the work. 5c per skein; 50c per dozen skeins.

Send 15c for color card containing samples of Richardson's embroidery silks, in all shades in which the threads are dyed.

Brainerd and Armstrong's Wash Silks

Brainerd and Armstrong's embroidery silks are made from cocoons grown in far-off China and Japan and have the rich, lustrous appearance so necessary for beautiful needlework. The threads are long, strong and pliable while the shades are smooth, and pleasing to the eye.

The silks are *pure dye*, and all shades are *fast*.

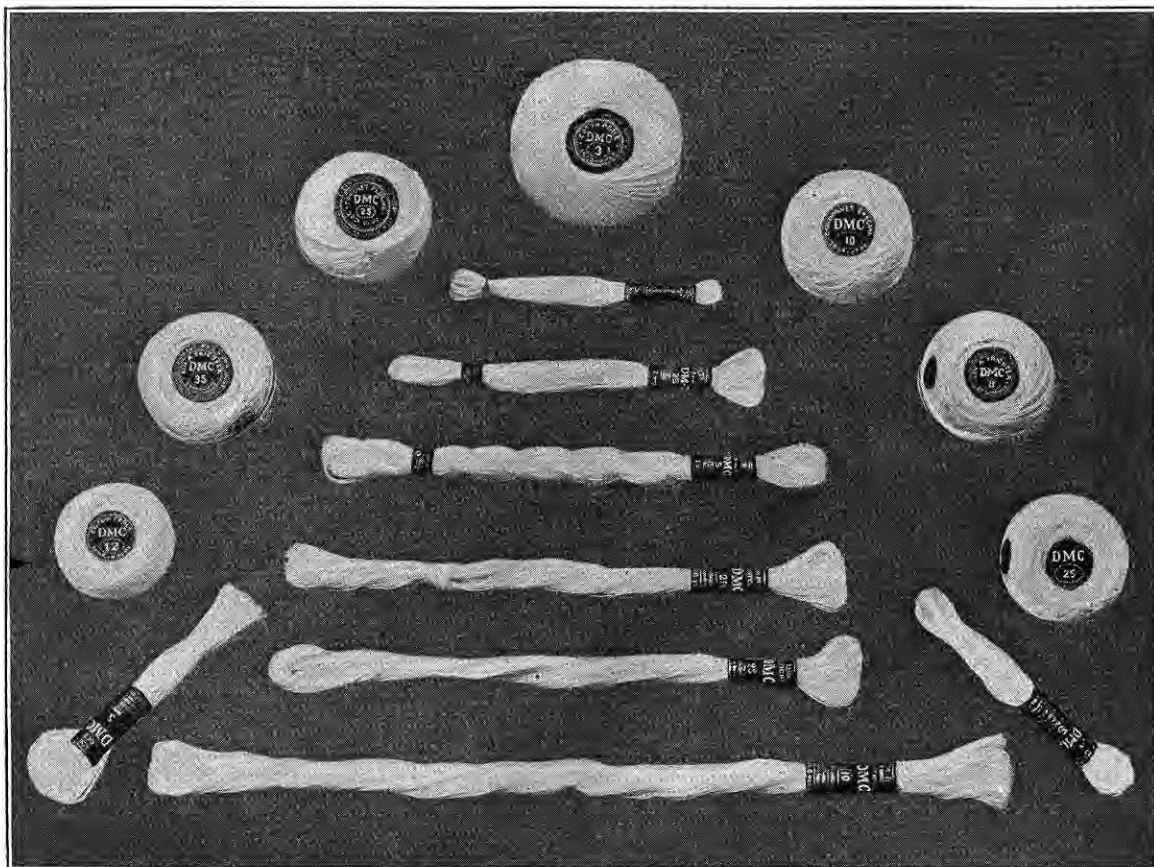

As shown below, we carry the two kinds of Brainerd and Armstrong's silks most used in embroidery with a wide range of the latest shades of each.

ASIATIC FILO. This is the finest size silk thread made. It is used for flower work where close shading is required; for solid work on centrepieces and doilies, and for all embroidery that is to be done on fine, closely-woven material. 5c per skein; 50c per dozen skeins.

ROMAN FLOSS. A very glossy silk much coarser in size than Filo, and used for heavier work and large designs on sofa pillows, table covers, scarfs, etc. It is also used for outlining, darning, and for various kinds of embroidery where a heavy floss is needed to bring the designs out in bold relief. The effects produced with this floss have all the beauty of Filo. 5c per skein; 50c per dozen skeins.

Send 15c for color card showing all shades of Brainerd and Armstrong's Embroidery Silks. A great convenience in ordering.
