Fall and Winter Catalogue 1931-32
Quilt making dominates the field of needlecraft today and nearly every woman is either busily engaged on one or more quilt projects or contemplates trying this fascinating work.

Quilt patterns are the big demand and the search for new and interesting designs is on at the libraries, in the stores, or among the hidden linen chests at home. Women are collecting patterns now with the enthusiasm of treasure hunters and they never seem to find enough.

Ruby Short McKim has had a considerable part in helping shape this quilt interest and in supplying dozens of the designs most sought. Her syndicated quilt features have been running several years in the leading newspapers and many magazines and during that time she has developed and sold eight different series of booklets containing groups of the most popular patterns.

Mrs. McKim is now offering a complete new quilt book called "One Hundred and One Patchwork Patterns" and has tried to make it so helpful and practical that it would merit the claim of telling "Everything about quilts."

Every phase of Quilt Making is interestingly explained and there are detailed chapters of instructions covering every step from the selecting of the design to the finishing of the quilt. In addition there are many helpful features found in no other book.

This book of 128 pages is handsomely bound in heavy cloth covers and will be widely used as a source of quilt making information.

Over One Hundred Actual Quilt Cutting Patterns Are Given

Milo, The Monk

For those of irresponsible age (any place from infancy to ?) we offer Milo, the Monk—mayhap from the same ancient tree as the Milo, Venus de, but rather different in stature and composition. Milo, the Monk is a creature of chintz and kapok, cuddly, amusing and sure to be loved. You'll even enjoy making him, but that process is quickly done, and the finished monkey in coat and cap cut from a bandana, will be seen perched about every favorite nook in the house. Stamped materials, all but scuffing, are easy to make, and the finished bandana, will be seen perched about every frame and work solidly in white wool, French knots, hoofs, noses, eyes and a bit of the ears is in mercerized black floss. When this is all done they cut out a seam larger, fold back and applique onto a woolly blanket, a cambric spread, or perhaps onto a wee bathrobe. Just one would be lovely on Sonny's wool suit.

Stamped pair with instructions for making, 3 ten yard skeins of white wool yarn and black boilproof embroidery thread is No. 356A at 50 cents. An eiderdown crib blanket in pink or blue, size about 30x40 inches may be ordered separately as No. 356B at $1.00.

Gay Zoo Towels

If you have not yet fallen for the decorative possibilities of funny modernistic animals, this Gay Zoo group will surely tell the bill. And if you are already addicted, you will still hail this delightful trio as a find. With their utter disregard for outline, they really are the cleverest yet!

We stamp them on three pure linen towels of assorted pastel tints. These are cut 12 inches wide by 18 inches long which makes a very usable size. They may be bought singly as No. 356T for tiger, 356G for giraffe, or 356Z for zebra at 30 cents each for the stamped linen and boilproof black sixstrand to embroider. We send yellow unless otherwise specified on single orders, but on the group of three, No. 356C at 75 cents, colors come assorted.

Since the Gay Zoo designs are so unusual you may want to use them in many places, on pillow slips, little boy suits or other places for children. We have therefore made perforated patterns which may be used many times for stamping offered as No. 356P at 30 cents for the group of three.

A Word About Prices

Every item in this catalogue has been priced as low as good materials and excellent design will allow. The few numbers carried over from the last catalogue because of their popularity have been refunded and as much as possible reduced. Every page carries money saving suggestions for you—and it will pay you to save this catalogue throughout the year.

TINK THE DOLL

Tink may be taken to heart by any sized youngster and most likely be carried back to college by Sister Diane! Any girl who has a room of her own is apt to have an array of clever dolls inhabiting it, and Tink is really clever from his merry whimsical face to his turned-up felt toes. You know one can't be ordinary with a nose of black felt, sand in certain portions of one's anatomy that makes him perch securely on a chair arm or bed post, and a bell on the cap so tiny that it only says "Tink" and not "tinkle." Stamped materials, felt, sateen, oilcloth coat, hand tinted cheeks, in fact everything but the stuffing may be ordered as No. 245 at 50 cents complete to finish this doll.

SEWING MACHINE COVER

FOR ANY flat top or slightly "humped" sewing machine, we recommend this charming monk's cloth cover. The material looks like a heavy handwoven crash—color a soft neutral tan and we cut it 20 inches wide by 30 inches long so it will fit any size machine.

Embroidery silhouette and border are suggested to be in walnut brown, although black, dark blue, red or whatever color would be best for the yard. The work is a gobelin stitch, fascinating to do and smartly effective. Stamped cover of monk's crash 22x50 is No. 355 at 60 cents. A BUNNY COOK APRON

BECAUSE I know that so many little girls love to cook, this Bunny Cook Apron was designed. Of course, one often wears an apron just to keep a clean frock as it should be, whether there are dishes to be dried or bubbles to be blown.

This apron will fit a ten to twelve-year-old girl nicely. By shortening the neck strap it comes down to a six or eight size and can be trimmed even smaller if you like. It's of heavy cream muslin with catenary yellow bands and strings. The shaped lower band is decorated with a cut-out bunny and blossoms where the cream muslin shows through most effectively. There is copper-orange floss included for bunny's whisker stitches and center dots for the flowers, and there is green floss for the remaining simple stitching.

Oh, yes, and there's enough white yarn to make a cunning little "cotton-tail," only it's really wool and not cotton at all.

CANDLE LIGHT PILLOW CASES

NO MATTER how many pairs of pillow slips your linen closet boasts, you will want one more pair when you see these clever ones combining applique and cut work. Colors are yellow, burnt orange and apple green, on lovely white tubing cases.

The conventional candle stick is the green with cut out sections that are buttonhole stitched around, wax candle is yellow with a bit of orange flame centering a sort of halo of yellow buttonhole stitch that cuts out most effectively. Running stitches in yellow and burnt orange hold the hem right side out in a most decorative manner. Forty or forty-two-inch tubing with appliques and floss in matching hues is No. 365 at $1.00 the pair.

PEENY PEN PILLOW

THIS calico pillow is "Peeny Pen's" cottage of nursery rhyme fame. You may recall that Peeny Pen's house by the side of the road "looked just like a little round tippery toad," which may place this colorful wee cottage in the nursery, or again any of the grown-ups are apt to pick it up by its plump little chimney extension and tuck in a chair for comfort or charm. It is only 10x12, but boasts a red walk and chimney, a green foreground and door, with blue windows, embroidered in brilliant squares, an ivory cottage with a green print roof and a yellow sky. The assortment of gay materials, muslin back and cording fold for edge, together with pattern and instructions may be ordered as No. 383 at only 25 cents.

EVEN DISHWASHING IS MORE CHEERFUL WITH THESE TOWELS

A NEW DISH TOWEL DESIGN FOR EACH DAY

A S LONG as folks eat, there will be dishes to wash—and of course the poor wet things must be dried. To liven up the dreaded, daily task our artist has designed a series of clever tea towel patterns—one for each day of the week: A wash "lady" for Monday, a Chinaman to iron on Tuesday, a charming seamstress for Wednesday, a Scotch shopper for Thursday, a Dutch cleaner for Friday, a baker for Saturday, and a prim go-to-church maid for Sunday.

Whether it is to add to the convenience of your own kitchen or as gifts to some bride of this year or ever so many years ago, you are certain to want this set of transfer designs when all seven cost only 20 cents.

Complete Set stamped on red bordered, part linen toweling includes red and black floss to embroider.

BUFFET SCARF SET

THE Buffet Scarf divided into three mat-like pieces is a justly popular plan, well adapted to the formal placings used on side-boards such as a large compote, flanked by candlesticks or an urn by bisymmetrical bowls.

The Buffet Scarf set we offer is on natural linen, two pieces each 9 by 12, and a center one 18 by 12. The design is of conventionalized grain heads with an interlacing stem that button-hole stitches around to make small cut work areas.

SILHOUETTE TOWELS

THESE silhouette towels are so attractive that you will want a dozen of them. It is hard to imagine anything more distinguished at the price than a pair of these quaint towels. They are number 619, stamped on good quality huck, hemmed, 16 by 30 inches and we include boilproof floss. Embroidery is of the easy, old-fashioned kinds, satin, outline and running stitches only, as the instruction chart provides.

A BIB AND TRAY CLOTH

HERE is something to make for the youngest member of the family. No. 663N is a bib-and-tray cloth set which comes all stamped ready to cut and bind with the yellow bias fold which we supply. On the bib a bunny policeman says "Go" to a traffic line of milk and fruits, while on the tray cloth the same authority says "Stop" to some pastry and tea people. A running stitch in black completes them in short order, or you may sketch on a bit of yellow, red and blue with wax crayons and then press well to set the color.

FLOWER MONOGRAM
MONOGRAMS are always in order and they are appropriate not alone for napkins, towels, etc., but are very smart on personal apparel, too. Here is a very beautiful and different series. Each letter in the alphabet is combined with a flower beginning with that letter, swinging gracefully into a circle to make a most attractive spot of decoration. They come in two sizes, 3 inches and 1 1/4 inches, on wax transfers and are easily transferred to your material with a hot iron.

There are 12 large and 12 small patterns of any one letter in order No. 502.

The Gingham Dog and the Calico Cat who "side by side on the table sat" have been prime favorites with children for a generation. Here they are in prim check and old-fashioned calico print, cuddly and cute as they can be. Order number 604 is the dog stamped on gingham, black sateen for his trousers, floss and buttons for his eyes, complete for 40 cents.

Soldier Doll

Here is where our ten-inch toy soldier qualifies like a major! He has been so adored by young and old during his short model existence that we know he'll march right into the affections of his young countrymen. For the child who has almost everything to play with, or for his grown-up sister or brother, we suggest the toy soldier. He is made of felt, which means no edges to turn, in red, white, blue, and gold, with shiny black oilcloth cap, belt and shoes. I suggest a bit of cardboard in the crown of his hat and in the soles of his shoes. The cardboard in the shoes will enable the soldier to stand by himself.

No. 241 includes exact patterns for every part, all felts, and oilcloth, and definite instructions. Stuffing not supplied. Price, 40 cents.

DAFFODILS FOR THE KITCHEN

There is never danger of a kitchen, breakfast nook or even a bedroom having too much sunlight, and these crisp curtains of fine weave and fresh, color splashes surely invite all that's shining!

Oilcloth Borders

Here is an idea which evolved from a very humble beginning into something both practical and clever. That is the cunning little window blind borders of oilcloth. The first ones we saw were for stern necessity on kitchen blinds that had been turned and shortened and then bound with a bright washable oilcloth band matching adjacent shelf covering! They had personality which the new shade had never possessed. For ours, we made one of jade cacti, with orange blossoms on a yellow desert facing and it was so much fun that another had to be made with green water, black and white gull, sails, and an orange boat and moon. We send these for a blind 30 inches wide, but of course they can be cut down a wave or a section of land for narrower blinds. Or we will cut them wider at small additional cost. The cactus border is No. 413 and the one of sea gulls is No. 412.

HANDSOME CURTAIN IDEAS FOR THE LIVING ROOM

Crewel Side Drapes - Hand Run Net Glass Curtains

We have catalogued quite a number of curtains that draw a rapid fire of superlative comment: "How clever—cute—adorable," and so, they are for kitchen, bedrooms, breakfast nooks and informal living rooms. But this time we are offering a handsome, dignified curtain that will do honor to the most formally placed windows.

Each side drape comes stamped on monk's crash, 25 inches wide, cut two yards and six inches long. If this is right for your windows and to allow top and bottom hems simply order No. 591 at $3.00 per pair, or we will gladly cut them in special lengths. Wax patterns to stamp on your own material, linen, shantung or light wool are 591B at 60 cents the pair. Crewel embroidery in wools, or in cotton threads if you prefer, using a wide range of beautiful colors and an authentic Jacobean design like this, assures curtains of richness and charm that will be enjoyed for many years. A chart showing colors and stitch suggestions comes with either order.

We assemble a wool assortment in tones of green, violet, mahogany, blue, with accents of orange and coral, sufficient to embroider a pair of side drapes, colors as No. 592 to 44.

For the glass curtain sketched, we supply directions and a pattern drawn to scale with a stitch count that is easily followed. After you have worked one or two units simply by weaving the heavy threads through the net, so many meshes, one direction, then so many another, you will find the game a fascinating one to repeat.

Pattern and instructions is No. 372 at only 20 cents. A splendid weave net, about 10 meshes to the inch, may be bought by the yard. We have it in ecru, 46 inches wide, which may be split for a single window at 75 cents per yard for any amount you need. Or you may use the pattern on your own material, bought locally.

EMBROIDERED FLOWER GARDEN QUILT

NOTHING makes a more intriguing set of embroidered quilt blocks than flowers, so we have chosen 25 flower garden favorites and had them artistically designed so each balances into a perfect square. They in no way compare with cheap, amateurial drawings where some are scant and spindly and other blocks crowded and ugly. Each design in our series is so well spaced that it could be used alone on a pillow or repeated for a curtain border.

Twenty-five stamped blocks 9 inches square on white or ecru tint gingham of finest quality, are No. 401S at $1.00. These alternate with 24 plain blocks of blue or any color to make a quilt top about 65 inches square. A nine-inch border, pieced or plain, brings the quilt size up to about 81 inches square or if you prefer a quilt longer than wide add wider plain color strips at the ends. A wax pattern for all 25 blocks and cutting design for picket fence border is No. 401T at 50 cents. Sixteen skeins of boilproof six-strand in the colors used is 401T, at 50 cents. THE HONEYMOON COTTAGE

PATCHWORK has nothing to do with cross-patches, but as Mrs. Wiggs used to say, it is "keepin' the peace and doin' away with scraps." You'll love to do something pieced for the treasure chest, maybe several quilts that will be cherished for a generation or maybe just a precious "patchedy" pillow to start with.

The Honeymoon Cottage has a quaint old-fashioned charm that will appeal to all lovers of a squat, broad-eaved, little home with wide, hospitable doorway and fireplace. It is delightfully made in two color combinations using a harmonizing print for the lawn. The materials used are white muslin, the colored materials are a fine grade of fade proof gingham. The print is of very good quality also. A block is simple to piece and when finished, measures about 12 by 13 inches. Twenty of the blocks set together with four-inch strips and six-inch border, make a quilt about 84 by 90 inches.

One block makes a clever pillow or stool top. A stool can be made at home by smoothly padding a board or shallow box and using wooden door stops, brass hooks, or large knobs, for legs. The edge finish for such a stool is a headed ruffle of green or any other color used in the pieced top.

BEAUTIFUL PANSY APPLIQUE AND QUILTED QUILT

NUMBER 660 is an applique pattern using that gentle flower favorite, the pansy, conventionalized somewhat to form a center border which is really just twelve blocks, each 12 inches square. This is surely reducing the number of blocks in a quilt to a minimum, yet their close position on the quilt gives the effect of generous, even prodigal profusion. A cutting pattern with instructions and dimensions may be ordered as number 660.

This quilt is developed in the triad scheme — two tones of orchid, two of orange, and a soft green which also makes the center square, an outer band and binding with the remainder of white. The size of the finished quilt is 72 by 84 inches. Material assortment used in the original was 4½ yards of white, 2½ yards of green, and 1½ yard each of the four other colors. We can supply this as number 660A in a fine weave, fast-color percale, or the colors and white of the original in the softest of sheer satine as number 660B.

The quilting patterns used in making up this beautiful quilt come separately. The center feather circle is 18 inches across and is in wax transfer form. This is number 252. The other quilting patterns are all perforated on durable paper and may be used over and over again.

TABLECLOTH AND NAPKINS

THIS charming tablecloth and napkins is known as the blue willow pattern. On white linen sheeting or white Indian Head with cross stitches of deep blue, it is perfect with blue willow or any other conventional blue and white dishes, either Chinese or otherwise. The wax pattern is for an open motif about twenty inches square which surrounds the center where flowers or a bowl of fruit may be. Six napkin corners ready to be stamped with a hot iron to your material so that every cross will show are included. The wax transfer for both the cloth and the napkins is number 654.

Large napkins torn 13 1/2 inches square are stamped and are order number 654N. While this design will generally be embroidered in blue, it can also be done in dull rose tones very effectively.

ORIENTAL POPPY

ONE woman said, "Before I catch the quilt fever, I'll have to see a pattern that's entirely different and stunningly beautiful!" The Oriental Poppy is in answer, and beside filling those requirements it is really quite simple to make. The pieced poppy is all straight sewing, the sort that may be run up on the sewing machine, while the bottom half of the block has two leaves and a stem that whips down by hand.

The original was gorgeous in two values of red, a flame and a scarlet, with the flower center of black, boilproof of course, and green applique.

The pattern is No. 380 at 20 cents with material for a sample block to finish about 15 inches square is No. 380X at 40 cents. IRIS APPLIQUE QUILT

SOME like to piece, while others prefer applique, and then there's embroidery, but whatever your choice you should get the thrill of making a quilt.

The iris applique is assured of success because the design is so lovely, and yet it is not intricate to make. Orchid and deeper violet, two values of green, darker for the leaves and a bit of orange embroidery make the blocks. It is set together in an unusual manner with narrow strips of green and small orange squares at each intersection, alternate blocks plain to allow for fancy quilting.

The pattern is No. 369 at 20 cents. Yardage assortment for the entire top to finish into a very large top that covers the pillows well, about 78 by 97 is No. 369M at $4.00. This is 10 yards of beautiful material in six colors and includes stamping of the 25 applique blocks for placing, with cutting patterns and dimensions on all the rest.

OAK LEAF AND ACORN QUILT

There is no mistaking the Oakleaf and Acorn applique pattern. It describes itself. In old quilts the Oakleaf and Acorn was always made of dark red and green, appliqued of course to white material. This is set together with alternate blocks of white 20 inches square.

We saw an Oakleaf and Acorn quilt worked up with another color added and it was so lovely that we are making our yardage assortment that way. It has red for the center block, green leaves, and a deep ecru or light tan for the acorn cup; the background is unbleached. Material assortment number 705M is enough for a very large quilt, five blocks wide by five long. It includes 7¼ yards fine 40-inch cream muslin for the background, 1½ yards green, 1 yard ecru, 1 yard red, the 10¾ yards with pattern. The pattern alone for this quilt is number 705 and if you would like to have a perforated pattern to use in quilting the old blocks, this may be ordered as number 705P.

NEW PAIR OF APPLIQUE BONNET BABIES

Pattern for little Bo-Peep is number 265 and for little Boy Blue is number 264.

If you wish these chubby babies stamped on material all ready to make we can supply them stamped on a beautiful quality finest cream muslin. Each block finishes 9 inches square stamped for applique placing and the three oblique lines to each corner as shown which continue onto the alternate plain blocks by connecting with a ruler line after the blocks have been set together. Alternate blocks do not come stamped for quilting. All applique materials are included with each block in a yellow print, plain blue, flesh, and light tan, fast colors of course.

We have given the materials numbers an M; 264M is one stamped and one plain square with 4 color appliques for Boy Blue. Number 265M is a pair of 9½-inch blocks, one plain and one stamped with 4 color applique patches for Bo-Peep. We include this extra plain block each time so that you may order as many as you like to make the quilt any desired size and have the same material for setting together. QUILTS have taken the country by storm, then the hexagon Flower Garden, or Grandmother's Flower Garden, or the French Rose Garden—whatever your locality is calling it—well, it's a whirlwind! It's not so easy as a nine-patch to seam up, but it really is lovely enough when done to pay for all the stitches. And if you get it ready cut—all the hundreds and hundreds of little hexagons exactly alike and ready to sew, it is a pleasure!
**WEAVING ON MONK'S CLOTH**

The pillow, No. 688, is woven with wool or dyed monk's cloth ravelings. The colors, starting at the center, are violet-red, orange yellow, and green. This is placed on a background of colors in the following order: light violet-red, dark violet-red, violet, blue-violet and green-blue. The back of the cushion is monk's cloth dyed to harmonize. The front of the pillow is woven both ways of the material.

The table runner, No. 690, also shows the natural material through the center. The edge and the cross-bars are done in orange ravelings. This also makes a good design for a couch cover.

All monk's cloth is offered in natural color only, and the estimates on any special size to be used for dyeing and raveling or for other projects will be given on request. The colors and yarns for weaving are not included with any of these orders. You may wish to vary the suggested color schemes or use materials at hand so we offer the designs and background material only.

**QUILTS OF GREAT GRANDMOTHER'S TIME**

The Rose Tree, number 709, is adapted from a rare old quilt from Switzerland. Applied in red and green, the large appliqued blocks were set together with 6-inch strips between and it had a very lovely grape-vine border which is shown in this drawing as number 710. Much of the beauty of this quilt is due to the way the rose centers and leaves are cut and the edges whipped under, letting the white background show through. This is sometimes set together with alternating white blocks instead of the 6-inch wide strips. The Rose Tree is applied to 18-inch blocks. Cut pattern and full instructions for making are included in this order number 709.

The Fleur-de-Lis is another authentic old design. It has been used in both applique and as a quilting pattern. The Fleur-de-Lis may be of dark red calico, solid color and applied to 12-inch squares with plain white squares alternating with the appliqued ones. This is number 706 and curving patterns and directions are both furnished under this number.

The Rose of Sharon is one of the loveliest and oldest of applique patterns. It has always been a great favorite and seems to have had a special significance for brides. Fortunate was the bride whose dowery included a Rose of Sharon quilt, and it was frequently saved for guests of honor occasions.

There are many different versions of this design, but we think the one we are showing here is especially lovely. Pattern and instructions for this may be had as number 707.

The Grapevine design which is included with these three appliques is one of the most popular of the old patterns. It belongs to the "running vine" type of border, of which there are many and varied adaptations. The usual quilt size is 90 inches long by 81 inches wide, but they may be made to any measurement by careful estimate of the number and size of the blocks and by the addition of a border of suitable width. This border design with instructions may be ordered as number 710.

FROCK TRIMS FROM TWO TO TEENS

Sister always needs a new dress or two, and while this pattern does not give cutting instructions for the dress itself, it does suggest half a dozen clever trims with wax transfer stamping patterns for all.

There is a pair of clown head pockets to be ruffled around and used on a wash smock, perhaps a red and white polka dot one; a Humpty Dumpty pocket which could perch on a wide second color facing, and a little Chinese girl who is mostly hidden behind her parasol which really is the pocket. However, her chow dog is in plain view.

The other three designs being conventional might be used on older girls' clothes, embroidered in soft wools, rope silk, or six strand. Each assures a smart touch of distinction.

The school day handkerchief corners are also included in pattern No. 306, at 20 cents, or the five handkerchiefs, each stamped on a 9-inch square of fine white muslin may be ordered separately as No. 307 for 20 cents. There's one for each school day depicting washing, ironing, mending, baking and cleaning.

REDY cut quilts save you all the tedious marking of materials and endless cutting of hundreds of small pieces. The assortment comes to you complete, all of the pieces accurately cut of best quality percale, absolutely color fast. A detailed chart shows exactly how to sew the pieces and quickly make up the quilt.

Noon-day Lily is a charming example of patchwork and applique combining to form this lovely pattern. The flower units piece; leaves and stems applique onto background and the whole sets together diagonally, so the lilies will grow up, with alternate plain blocks between.

The colors in which we are cutting this number are pink and rose combining in each flower with green leaves and white background. The blocks finish 12 inches square and you may order one ready cut block with back and boxing to make a quaint patchwork pillow as No. 300X at 50c. Or material for a quilt top to finish 85 inches square, all parts ready cut of fine fast color percale in the same dainty colors is No. 300M at $4.00. This is for 25 pieced blocks and the alternate plain white blocks for the complete quilt. Pattern only is in our patchwork booklet No. 631D, which also contains eleven other patterns at 15c for the group.

THE PARROT RUG OR CURTAINS

CONVENTIONAL parrots for the sunroom or for a living room, dining room or man's room are stunningly colorful. The design is separated, stencil style, into integral parts with paths of background color between, and all lines are straight which assures a thoroughly formal design. It must not be naturalistic to use for a floor rug or even on the curtains, as lifelike birds and flowers should not be walked on.

The curtains, No. 517M, are simple to make, as they are just large appliques with no edges turned back. By using a fine, firm weave cloth and chain stitching in black, close to the edge, you get a nice effect from both sides, and a curtain that wears and launders beautifully. These panels come stamped on 48-inch ecru marquisette, cut 2 yards and 6 inches long. The appliques in rose, blue, green and a bit of gold are included, so all you need is a black boil-proof floss to complete. Our order No 517M is one panel as described; 517P a design for all applique parts and placing, from which you can cut your own materials. Parrot unit for either curtain or rug is the same size, 34 inches wide by 24 inches high.

The hooked rug, No. 518, comes stamped for a large size on India burlap, cut 60x40 inches, or you may order a wax design of this as No. 518P. Rug yarn may be used for part or all if hooking this unusual design, or you may dye rags, stockings, etc. We have a regular rug hooking machine that is very practical and may be used with either rug yarn or cut strips of materials. This is No. 514. Instructions of course accompany all orders.

BLAZING STAR

AT SOME time of year many women feel the urge to make some sort of inventory of old clothing and rag bags. The Blazing Star rug, made of both yarn and rag pieces, is likely to bring about such an inventory, we believe. Yarn is used for the center design and for the stars in the four corners, while the background is filled in with rags pieces. The design is stamped on burlap, number 593, measuring 40 by 60 inches. Or we can furnish heavy wax transfer designs that you can use on your own materials such as sacks. We can also supply a regular rug hooking needle or machine that regulates the stitch. This is number 514. Heavy rug yarn in a wide variety of colors is available by the ounce in any quantities. We can supply estimates of the amount needed for any of our rugs and will send samples on request.

A QUAIN T STAGE COACH TOWEL

Stagecoach designs have pranced into favor anew these days with all the romantic glamour that used to surround the real coaches when their dashing teams bowled them up before the Inn with such a flourish: What a thrill it must have been to go adventuring with a coach and four—really more exciting than embroidering I fear—but then a ride is soon over, while a dainty little towel may be treasured for years.

This is not such a little towel either, but a most usable practical size, 16 by 32 inches of a good quality huck, hemmed, and with woven borders. The towel may be had on white or in a dainty tint, fast color of course.

The careful ten-year-old girl can make the stagecoach towel, but a junior high girl, who has studied sewing, will get along even better.

APRONS YOU WILL LOVE TO MAKE FOR GIFTS OR FOR KEEPS

MORNING GLORIES

JUST an ordinary apron would not dare present itself in this group, but the Moonvine apron is apropos. Like the sweetheart apron, it has a shoulder plan worth bragging about, an apron that both feels and looks delightful. The handwork is reverse applique; it's a double thickness front where cut out sections of the green top whip back to form white buds and blossoms most effectively. All parts ready cut or stamped of cream muslin and fine green gingham and floss in green and orange to complete come in order No. 407. Binding is not included; it takes about 8 yards of bias fold, or you can simply hem back the edges.

407 Ready-cut Apron, appliques, floss and instructions 50 cents

SWEETHEART APRON

MAN may work to earn money to get food for strength to work to earn money, but a woman must appear attractive while working to prepare the food, budget the money, and maintain the strength of the man who works to earn—etc. This may not be a sociological fundamental but it is a secret worth knowing. House frocks may be as dainty and becoming as dress-up duds, and really a man is as apt to romance for a rose sprigged apron as for a formal by moonlight.

One of our group is christened the "Sweetheart Apron"; it is made of five heart shapes, counting the pockets, comes ready cut of soft, adorable pink print which is fast color of course, and another reason, you will keep that sweetheart disposition while wearing it, as it fits to perfection and can't slip off the shoulders! Size may be adjusted by the placing of the "artery" through which the strings tie at the back. Cut materials for the sweetheart apron which you may quickly hem or bind and sew together may be ordered as No. 404. You will want to make half a dozen like it.

FOR BABY'S BATH

SPECIAL apron for a special use is the enveloping one for baby's bath. It's really just an enormous soft bath towel with a bit of cutting to fit it around about, and what comes off the top cleverly sews back for strings and neck-strap. Flesh pink and pale blue with a bit of boilproof black stitching make an adorable applique, completing an apron that makes a wonderful layette gift, because the young mamma can wear it from the first time she holds the wee one for his bath, using it to wrap and protect him from tiny draughts, until he is a big splashing young walrus in the family tub and mother needs the protection! Extra heavy turkish towel, 22 by 44 inches, all cut for the apron, with appliques and instructions is order No. 408.

FUDGE ALA APPLIQUE

THE fudge receipt apron should be introduced early in this article because early in life is when the sweet young things will gurgle their vocabulary of collegiate adjectives all over it. We'll admit it is a sharp idea, two china print teacups form the pockets, one saying "Syrup" and the other "Milk"! three overlapping cups, an applique only, say "sugar," there is "butter" on a gold colored egg, three squares of chocolate and, a teaspoon embroidered to remind you of the vanilla. All are added together with little "plus" signs, then an "equal" and the word "Fudge." The apron itself is cut from firm art quality toweling, so it has selvedges both sides. Appliques, stamped apron and brown floss for embroidery, are all included in Order No. 406.

406 Ready-cut Apron, appliques, floss and instructions 50 cents
FOUR SMART APRONS

No. 102 is a wax transfer for the designs used on the four smart aprons shown. It includes (1) a comical clown applique with white face, hands and feet and polka dot suit, (2) nosegays in two sizes to embroider in various dainty colors, (3) a bird cage pocket with a cunning applique bird to put under the one-stitch bars of his cage, and (4) a peasant design for gay color embroidery on the bodice top of the Bulgarian with a bottom border design.

Cutting designs for the aprons themselves are not included, but they are suggested of simplest cut, or the designs themselves may be applied to any favorite well fitting pattern. All are distinctive and original, a group that with their instructions will assure many clever aprons for bazaar, prizes, gifts or for your own pleasure.

The clown apron is also furnished in material as No. 102A, which includes a large colorfast bandana with the appliques, string belt and instructions to complete. Materials for the rest of the group, excepting the Bulgarian one, are not offered as they are well adapted to remnants or left over lengths. No. 102 is also included with this material.

An apron handsome enough to wear for dress-up and not for protection at all is the one of Bulgarian peasant type. It is ready-cut and stamped on a brilliant poppy red cambric, fast color of course, to embroider rather richly in black and white. You really should have one, even if for rainy days only, it's so gay and distinguished looking, yet as practical as the drabbest of gingham dare be. It's 36 inches across, the bodice top is double to assure its standing up properly and also being neat back of so much embroidery. Strings are ample for a full bow. A skein of black and white floss comes with the red Bulgarian apron No. 741. Instructions are included with all orders.

A DUTCH APRON AND CAP

The apron and cap set illustrated here is made from an excellent quality of cream-colored muslin and bound all around with pretty, fast color blue. The only work necessary to complete the set is to embroider the mill on the cap with blue, and embroider and applique the quaint Dutch lovers. The lassie's blue skirt forms a pocket, while the lad — for admiration only — wears bright red trousers and cap. Designs for placing applique and embroidery are stamped on apron.

The cap is of generous size and is made without elastic or draw strings. It irons perfectly flat. It is to be adjusted to the most becoming proportions for the wearer by a band which continues from the front. This may be fastened at the back of the neck in the manner one likes best.

The apron is 36 inches wide, or medium size. This width permits it to come well over the hips. It is fashioned with a wide bodice-like top which gives a trim look and again accentuates the Dutch influence.

DAINTY BRIDGE OR PARTY FAVORS—SMART AND EASILY MADE

MENDING JACK AND A WINDOW-PIN CUSHION

When beginner's luck strikes, and the person not a bridge devotee is winner (or makes a very low score, perhaps), it might be quite nice to have "Mending Jack" to offer. Jack is quite in keeping with the bridge idea, but of more general use. His arms and legs are made up of a total of 16 spoons of mending floss for hosiery, in an assortment of popular colors. Bright red felt cap and tunic are embroidered in a few black and gold stitches, and the head and garments are double. Jack will bear close inspection and will reap due admiration. Stamped materials, floss, instructions and the 16 spoons of thread may be ordered as No. 720.

In the window pin cushion order is a piece of dark blue felt, for the pin cushion itself, green for a window box, bits of gay color for the posies, and floss to complete. There are two flowers each using red and orange felt and one center flower from light blue. The markings into window panes are done with six strand bobbin and one center bow with light box, bits of gay color for the posies, and flack bow with red and orange flower and flax bow.

Measurements and design, blue bias binding, and 5 colors of floss to complete it are all included in Order No. 717.

Sets of durable little tea coasters which save damp table-tops or covers when cold glasses are served will surely find a welcome. We have had foundation octagons made of bookbinders' board and the dull enamel cloth in quaint patterns is easily cut to fit, one piece exact for top and edge thickness, another for the bottom. These delightfully useful little coasters are most inexpensive. Order No. 719 includes all materials, except glue, and instructions for four.

When afternoon or evening guests are expected, finger towels are as logical as they are smart, and three or six on the workroom towel rod are a decorative convenience. They are only 9 by 14 inches, and each comes stamped with a neat initial design as No. 695. The towels come unfinished at the edges, so tiny side hems with half-inch end hems are to be run by hand. If you do not care for any particular initial we can stamp your towels with an attractive flower basket design. Order No. 696 is Linen Finger Towels. 9 by 14 inches, in maize, pink and jade. They come stamped with any initial desired, set of three.

LINEN GUEST TOWELS

Three finger towels of linen in lovely tints of maize, pink and jade comprise the next gift set. When afternoon or evening guests are expected, finger towels are as logical as they are smart, and three or six on the workroom towel rod are a decorative convenience. They are only 9 by 14 inches, and each comes stamped with a neat flower initial to be worked in all white or in one of the contrasting hues, as green on peach, peach on orchid, and orchid on green. The conventionalized flowers used are different for each initial, and a flower whose name begins with the letter specified forms a circle design about that letter as: A is circled with an apple-blossom design, B with a butter-cup, C with a calla lily, and the like. This set of three linen towels is available, stamped with any initial design as No. 695. The towels come unfinished at the edges, so tiny side hems with half-inch end hems are to be run by hand.

If you do not care for any particular initial we can stamp your towels with an attractive flower basket design. Order No. 696 is Linen Finger Towels. 9 by 14 inches, in maize, pink and jade. They come stamped with any initial desired, set of three.

A WEDGWOOD DESIGN

"WEDGWOOD" we call this extremely smart apron, very dainty in cut and color. This comes ready cut of beautiful sky blue material, stamped with conventional fruit motifs. These outline stitch in old ivory and have a filled-in background of darker blue running stitch which gives a charmingly showy effect. The cut is also clever; just a lovely practical apron that you'll tie on in a second and feel quite dressed up for work. The order is No. 405 and includes boilproof floss in the two correct shades to complete the embroidery, ready cut apron and instructions.

Fanchon is stamped on cream art cloth with hand-tinted face. Her shoes are cleverly patterned as a continuation of the legs, no extra piece, and yet they have good form and soles. Her hair is golden French curls (orange yarn loops, to be very truthful). The abbreviated frock is oil-cloth of the same bright orange hue, with cream collar, panties, and polka dots. CANNIBAL CLOTHES BAG

The Cannibal King clothespin bag is quite the handiest thing for its purpose that we have seen yet. His mouth is convenient size to reach in for the pin you are just ready to use or return and the bag sliding along the line is right exactly where you want it, on a better level really than a clothes pin apron. You see this bag is made to fit a wooden clothes hanger, cut down to 12 inches across, or any other slat with a screw hook in it to hook over the clothes line, always where you are working. The Cannibal King is embroidered in black and white, with applique gold crown and earrings. His mouth is round with red bias fold to make it strong for the duty it has to do. The bag itself, 12x18, is of heavy tan art cloth; order complete with colored floss and appliques, No. 342.

COLORED FELT IS USED

The modern closet is orderly, colorful and compact, a beautiful file arranged for clothes protection and convenience. Walls can be painted in a washable glaze, covered with washable paper, or papered with gay oilcloth. Shelves may be treated like wise.

Shoes line up in military array on a low shelf, or for better care, there are the drawer-pull shoe cabinets which come in sections to use vertically on the floor or horizontally on a shelf. Hangers, of course, must swing from a rod, whether of the humble pole variety or elaborate metal bars that move out into the room for easier scrutiny of the clothes array. Hats may be stored in the band boxes of their advent or kept on stands under cover of glazed tarleton or glass cloth.

Non-slip hangers are imperative for silky garments. We suggest covering the wooden dime-store hanger with wool felt which clings to even the slickest of gowns. Pastel tones in heaviest felt for a set of three would make a welcome gift or bridge prize, especially if tied together with a perky bow of ribbon. The felt is an assortment of three tints, can be had with instructions for covering your own hangers as No. 723. And felt, with no edges to bind, saves time in the making.

Felt shoe tips, cotton stuffed, are smart to tuck into dainty slippers between wearings and help them retain their shape. These are offered in old gold with blue felt for the flower decoration as No. 727.

AFGHAN AND PILLOW

Wool is soft, beautiful materials with which to work because they are chockered in an incredibly short time so that even the making of an afghan which is done in small squares is ideal for pick-up work.

Tan, brown and cream shades, with here and there a square of scarlet or navy, make a lovely combination, especially when bordered with a strong outer band of the blue. Thirty-two blocks of each of the five colors, 160 in all, make a large coverlet which will add a glow of color and comfort to sun-room, library, living-room, or bedroom. An instruction chart for making the afghan is shown and yarns in any special hues may be ordered.

Instructions for crocheting the lovely Rainbow Pillow are also included in order No. 716. Starting with a circle and made with the simplest single stitch, it works round, then into a fan shape, finishing about 23 inches long by 14 inches high. Midnight blue to match the afghan border might be used for the body of the pillow; or black is handsome, and a dozen hues are blended in the rainbow. These shade from orchid through violet, blue, turquoise, greens, yellow, and orange to red. If you would like to have a lovely complete yarn assortment with instructions for making the Rainbow pillow, this is No. 715.

Here is a series that the little girl of “cut-out-and-make” age will enjoy. That extends from her first pair of scissors on up into the time when designing new costumes is the thrill.

There are more than a dozen dollsies, boys and girls from Holland, Sweden, The Balkans, The Orient and the Arctic Circle. All are beautifully drawn, winsome world-wide children with costumes and equipment of their lands. They come to you printed in two colors on ivory post card stock, ready to cut out and play with, or to use in school or Sunday school projects where authentically costumed dolls would work in educationally. Girls will add many costumes to the limited wardrobes included, enjoying the fun and learning design from many lands while making them.

Set of six cards, each size 5½ by 8, may be ordered as No. 345.

One of the dolly patterns is shown on the opposite page. The other five are all different and each is a world of fun to make and to keep.

EVERY ONE WILL BE CHARMED WITH THESE UNUSUAL BLOCKS

AN ALL OVER patterning of all pieced blocks results in the richest and most interesting-quilt top imaginable. And here is a brand new, especially designed block that sets together in a really exquisite patchwork.

Please don't say it's too much work— it does take 49 blocks and 11 half blocks, but that isn't so bad when your design is all straight sewing such as may be run up on the machine with no awkward corners to fit in. After you piece one or two blocks they sew together without having to attend closely, so piecing becomes a sociable craft once again.

This quilt may be developed in any color scheme you choose for your room, but we suggest and supply, ivory background, green, brown and gold. Blocks finish 11 inches square, 13 inches on the diagonal which makes the complete top about 75x90. The pattern with instructions is No. 381 at 20 cents. An assortment of material in the above colors of finest fast color tones to make the complete top with pattern included is No. 381M at $3.25. Or if you want us to do the tedious half of making this quilt top we will cut it all out and send you the ready-cut packet, helpfully assembled with definite instructions as No. 381C at $4.50.

THE ACORN QUILT

DRESDEN FLOWERS

SEVENTY-ONE little embroidered squares set together in a definite plan, alternating with plain ones to make a pattern which crosses itself in diagonal lines of flowers, centering every large square with a flower-wreath block, is suggested here in finest Butychine.

Two color schemes are suggested—rose, pink, orchid, sky blue and green being one favorite, while coral, apricot, yellow, turquoise and green is another. In the first instance alternate blocks may be pink, orchid or blue, while yellow or green is recommended with the second grouping. A set of 71 blocks, the correct number of each design, stamped on ivory white buty-chine is order No. 361M at $2.50. For 72 alternate color blocks all cut exactly 6 inches square of matching buty-chine in any tint order No. 361B at $2.00.

An assortment of embroidery threads is 361T-1 or 361T-2 for the first or second color scheme as given above, 17 skeins for 50 cents. Or a perforated pattern of the three blocks which you may use numerous times on your own materials is 361P at only 40 cents. The quilt center pieces 66x78 less seams, so you may want a border, for which we can supply any amount of buty-chine at the rate of 60 cents per yard.

NO MORE TEDIOUS MARKING OF QUILTS IN OLD-FASHIONED WAY

Stamp Them Quickly by Using These Perforated Patterns!

PERFORATED QUILTING PATTERNS

MARKING a quilt for quilting is more nearly like an artist's job than any step in the making of a quilt. On pieced blocks straight lines, which follow the seams of the patchwork or cross into checkerboard or diamond effects, are usually best. On the alternate plain blocks or strips and on borders the quilting may be as ornate as desired.

We have adapted some of the old-time favorite designs in addition to originating new patterns, to fit other space plans. These come on a special tough but transparent paper, the design perforated so that it may be used over and over with stamping paste.

HOW TO STAMP

TO USE our paste, wet a piece of cotton lightly with benzine or naphtha, then rub over the paste until the cotton shows color. Place your perforated pattern over your material, smooth side of the pattern up. Hold pattern firmly in place and rub lightly over the design with your cotton. Be careful not to get your cotton too wet. After you have finished using the pattern, pour some benzine freely on a piece of cotton and clean pattern through the perforations thoroughly. This paste will not smear like a pencil or powder but does not remove easily. If stamped lightly the thread should cover it. If you practice first on scrap material you can soon judge how damp to have the cotton, how little paste will transfer, and then there will be no mistakes.

STAMPING PASTE

WE SUPPLY black or yellow stamping paste under number 206 at 25c postpaid. This box of paste is very effective to use in stamping and there is enough of it to last for many stampings. Please state color wanted.

206 Box .................................. 25 cents

Note: The actual size of each perforated pattern is given. It can be used on a much larger block.

GIFT MAKING IS A PLEASURE DONE FROM THESE DESIGNS

LILY PILLOW CASES

REVERSE applique is the method employed in making these smart pillow cases. That simply means that the color facing, with its embroidered leaves and flower centers, has slashes cut which turn under and whip back to show oval of white—the pond lily petals. Unless you have seen this simply done trick, you've no idea how effective it is. Pillow slips come of 40 or 42-inch tubing with stamped color facings in orchid, or peach and embroidery floss in green and copper for leaves and French knot centers. This is order No. 653 at $1.00 the pair, best materials of course. A matching sheet may be ordered as 653S at $7.50, or the wax pattern of the three to use on your own materials, or on aprons or bathroom curtains as No. 653P at 25 cents. BABY BIRTH CARDS

TO BEGIN with his majesty, the Baby, may be too young to appreciate such smart little announcements, but his—or her—friends will realize what a modern young person has arrived when they receive this card. Mr. Stork is an aeroplane, and a parachute lowers the baby. On the opposite page of the inside fold it says "Cargo weighed "Consigned as " and here you write the chosen name. "To" and the parents name fills in here of course, with the date. These come printed on a lovely white stock that will take water color, for a bit of hand tinting if you like. BIG FOLKS—LITTLE FOLKS—ALL WILL ENJOY THIS FURNITURE

MODERN WOODMAN PILLOW

The emblem pillows which a man enjoys are not always artistic enough to suit the woman's taste, but in this Woodman pillow we have secured something high class and really beautiful. A shield of white wool felt about 6x7 inches cut to show red felt and green satin through the cut parts. Red and white chain stitch make a richness of embroidery for the circling lines of the cross cut log. The whole on a heavy, beautifully colored green satin pillow 14x18 is most effective.

VALLEY LILY LINENS

The daintiest of spring blossoms, lilies of the valley, are here used to decorate linens for the bedroom. Stitches are the good old stand-by sort that any needlworker can do—a buttonhole or satin stitch for scallops, the same with outline for the pattern. For a single scarf or pair of pillow cases, or for a whole ensemble of boudoir linens, this pattern would be a happy choice.

Pillow cases stamped on 40- or 42-inch tubing of excellent quality are No. 353A at $1.00 a pair—or a wax pattern 353A-P for 20 cents. The vanity set on finest white linen is 353B at 40 cents or a pattern 353B-P for 20 cents. A dresser scarf, with selvedge edges, stamped to scallop only at the ends is also of beautiful fine linen, 20 inches wide by 45 inches long, No. 353 at 60 cents. A scarf pattern would be the same as that used on the pillow slips, 353A-P.

DOLLY FOLKS FURNITURE

Six full rooms of furnishings, almost fifty articles, comprise the set. There is a dining room suite of dropleaf table, buffet, tea cart, half a dozen chairs, including one armed host chair and a high chair for baby. The library has a grandfather's clock, desk type table, book cases, a charming fire-place, three easy chairs, a stool, daybed and end table. Living or music room, kitchen, bedroom, and nursery are equally furnished, and every single piece from piano to coal bucket makes up as cunning as can be.

This set comes printed on 20 sheets of tough, heavy weight paper which scores and creases well, stands firmly and glues into mighty sturdy little furniture. Each sheet is about 7 by 9 inches. All pieces finish in proportion, the table is about 1 1/2 inches high, the bed 3 3/4 inches long, etc.

Hand tinting with paint or crayons adds considerably to the beauty of this set which is primed in black only. General directions for cutting, scoring, folding and gluing into shape are included in each order. The entire set will be sent as number 247 at 40 cents. A 16-color wax crayon set for this or other projects is number 648 at 15 cents.

OILCLOTH, SILK OR SATEEN—ALL ARE SMART IF SMARTLY DONE

SWANKY OIL CLOTH PILLOWS

NUMBER 609 is a large pillow of unusual shape, of black oilcloth posies and leaves. The posies come from a basket of ivory, laced through black. The stems are green wool chain-stitch, and the ball centers of the flowers are of wool yarn. All materials, including gay felt binding, are included in order number 609, at 50 cents.

The oblong pillow, number 610, 50 cents, also includes front, back, felt binding, all color swatches, and instructions. This includes everything but the stuffing for the pillows, and that is excelsior. Even paper, torn and wadded, makes suitable filling, as these colorful pillows are for sheer swank and gayery; not even the cat could bury himself on their slippery sides! But a group of these, a center basket pillow flanked by two oblongs, makes a spot that draws both attention and admiration.

HAY you noticed that clever, conventional animals have come to a place in home decoration? Our group of three pillows presents a camel, giraffe, and elephant, primly conventionalized to fit the 10-inch squares of satin. There is a quilted background on each, while the outlining of the figures may be braided, embroidered, cone-embroidered in plastic, or simply quilted, all equally effective.

A MONOGRAMMED PILLOW FOR MEN

Pillows are always in order, especially if they are as distinctive as our black monogrammed pillow number 106X. This is made of excellent quality black sateen, 18 inches square, and we not only furnish the front and back of the pillow but we also supply any two letters that you may request stamped on red felt. In this way you can make up a very smart and most individual gift, because nothing is more truly personal than a specially monogrammed article. It is only the work of an hour to complete this. Be sure to say just what two initials.

QUILTED PILLOWS

Order No. 572 includes the group of three, fronts, backs, and edge boxing material of satin-radiant, a high luster silk and rayon cloth. THREE DUCKY BIBS

These three ducky bibs for breakfast, lunch, and dinner need only a few inches of embroidery in black and orange to complete them into something useful yet welcome. The bibs measure approximately eight inches wide, and from front of the neck, nine inches deep.

Turtle Doorstop and Froggy Pillow

This is Mr. Frog! He is a cunning, chubby sort of creature, not at all reptilian, but just a wise-eyed froggy pillow to set on the floor, a shelf or a chair arm as a sort of mascot. He comes stamped on jade green and light yellow oilcloth materials with yellow, black and white floss included to fix him up according to directions as No. 244 at 50 cents complete. The body is about 10 inches square with short arms and long jointed legs in proportion. These oilcloth toys or pillows are easily made, being mostly a process of blanket stitching edges together.

Hand Painted "Beautilities"

At the fall "Gift and Art Show" we found a pair of lovely containers that most successfully disguise two rather unlovely kitchen and bathroom necessities. One is the "Lux Pitcher" which makes smart and handy a box of soap flakes, and the other a shaker container for the ever present can of scouring powder.

Spots are always appearing on the enamelware, but if one possesses a hand painted Hollyhock can of cleanser it is a dainty matter to shake it at them and then leave the cleanser proudly in view on a shelf. This container opens at the bottom to allow for inserting a standard size can with an overlapping ring at the top to hold it firmly in place. Background is pale green lacquer, with gay little enamel hollyhocks in tones of rose, yellow, green and a bit of black painted on by hand. The order number is 770 and the price $1.10 postpaid.

The Lux Pitcher, too, is a real inspiration in convenience. Designed to hold that tippy little box of soap flakes which we demand at hand for the overnight sudsing, it is as useful as it is artistic.

Also of metal, lacquered Nile Green with a similar grouping of hollyhocks at $1.10 postpaid.

| Metal container for soap flakes box, lacquered and hand painted, postpaid | $1.10 |

Dainty Coverlet

Dainty coverlet for the child’s bed is a favorite project for designers and needleworkers. This new one of Mistress Mary is unusually attractive with its applique, lace frills, garden of posies that are really little wool balls which tack through the quilt, and quilted corners of "silver bells and cockle shells."
