## Explanation of Stitches

**CHAIN (ch).** With a slip knot on the hook, draw thread through this loop; again draw thread through this second loop and continue until the chain is the required length.

**SLIP STITCH (sl).** Having a st on the hook, put hook through work; draw thread through work and loop on hook at the same time.

**DOUBLE (d).** Having a st on hook, put hook through work, draw thread through work (having two loops on hook), thread over again and through both loops.

**HALF TREBLE (ht).** Having a st on hook, thread over, hook through work, thread over and through work (having three sts on hook), thread over and through all three sts at once.

**TREBLE (t).** Having a st on hook, thread over, hook through work, thread over and through work (having three sts on hook), thread over and through two loops, thread over and again through two loops.

**DOUBLE TREBLE (dt).** Having a st on hook, thread over twice, hook through work, thread over and through work (having four sts on hook), thread over and through two, over and through two, over and through two.

**LONG TREBLE (lt) OR TRIPLE TREBLE (tt).** Like double treble, with thread over three times, and after thread through work, crocheting off by twos. Some-

times "lt" is used for anything longer than dt, and the number of loops given.

**PICOT (p).** A p is formed on a ch by joining the last four sts (or any given number) in a ring by working a sl or a d in the fourth st from hook; a sl st is understood unless otherwise designated. In a few cases the p is joined by a t, but it is so stated.

**CLUNY STITCHES, OR GROUPS OF CLUNY.** Two, three, or four (any given number) t, dt, or long t are crocheted off, except the last loop of each, which is kept on the hook and one loop drawn through all together.

**ROLL STITCH.** Thread over hook a given number of times, thread through work, thread over and through all the loops, (but not through the st on hook), thread over and through both on hook. The hook for roll st should be of uniform thickness for several inches.

**BLOCK OF 4, OR BLOCK OF 3, ETC.** A given number of t, dt, or long t worked without ch between.

**SHELL.** A group of t, ch 1 (or more), the same number of t, all joined in the same st or over same ch, as (4 t, ch 3, 4 t). The number of t, as well as the number of ch, may vary. "Shell over shell," the t are all made over ch of shell below.

## Directions

**Materials.** The crochet cotton mentioned in this book refers to any hard-twisted cotton sold under the names of Cordonnet Special, Cordonnet, Kord-net, Cordichet, etc. These cottons can be bought where needlework supplies are sold.
