NEW Kind of Hospitalization Insurance

Pays You $100 a Week Extra up to 50 Weeks

— for every week you are in the hospital — $100 a week over and above any money you collect from V.A., Workmen’s Compensation, or other insurance.

THIS NEW POLICY is so unusual — so different that it is cut simple that you will have to read the policy itself before you can grasp its extraordinary features. For that reason we now offer to put an actual printed copy in your hands. Read it to yourself in the privacy of your home. You will be amazed because in less than 150 words of plain English it binds this Company to pay you $100 a week in cash for every week you are in any regular hospital. No limited payments of specified amounts. You get $100 a week up to 50 weeks — up to $5,000.00.

It guarantees payment for every sickness except mental illness or normal childbirth — any sickness or any accident which originates after the policy is issued. There are no waiting periods — no exclusions.

It is renewable at the option of the company and guarantees that you can cancel at any time you like.

Compare any policy you now have with this advanced new type of insurance!

Needle Pointers

Many clever home sewers are fashioning colorful Indian saris into stylish chemises. The rich, heavy silk of a sari is easily molded, and it can be laundered as easily as a handkerchief, despite its luxury look.

Quilted nylon chiffon is one of the loveliest new fabrics for lounging robes. These robes are available in pretty prints, trimmed with satin ribbon.

Your old buttons will gleam like new after you've painted them. Here's an easy method: hold button with a toothpick or match, using enamel, paint entire button; dry by placing button on top of an empty bottle; then paint button with clear fingernail polish for an extra shiny gloss.

Want a new idea for an apron? Sew extra padding at each lower corner of an apron. This way you have a panholder right at your fingertips when needed.

When you lengthen blue jeans it usually leaves an unsightly white line on the fabric; to get rid of this, rub the line with a blue crayon and press with a warm iron.

Use this idea when working on a large crochet item—mark the rows in the direction book with a straight pin—then you can always find your place with just a glance.

Mosaic Scarf

Made on the diagonal, this scarf is most unusual and very attractive. When made with number 30 crochet cotton and a size 12 steel crochet hook the scarf measures about 15½ x 39 inches. You will need approximately 1250 yards of thread.

**Abbreviations:**
- st (stitch)
- sl st (slip stitch)
- sc (single crochet)
- ch (chain)
- dtr (double treble)
- dc (double crochet)
- inc (increase)
- sk (skip)
- Ips (loops)
- dec (decrease)

This scarf is made of simple filet crochet and the work starts at point indicated by arrow at the lower right corner of chart.

Row 1: Ch 38, turn, dc in 8th ch st from hook, (ch 2, sk 2 ch st, dc in next st) 10 times.

Row 2: Ch 5, turn, dc in next dc of previous row, * 2 dc over ch, dc in next dc (this forms a bl), repeat from * 8 times, ch 2, dc in third st of ch 8.

Row 3: Ch 5, turn, dc in each of next 7 dc (forms 2 bls), (ch 2, sk 2 dc, dc in next) twice, dc in each of next 3 dc, (ch 2, sk 2 dc, dc in next dc) twice, dc in each of next 6 dc, ch 2, dc in third st of ch 5.

Continue working from chart through row 9, forming the sps and bls as in first three rows.

Row 10: An inc at 9 sps on each side of corner scallop (or point) is marked at this point. Ch 31, turn, dc in 8th ch st from hook, (ch 2, sk 2 ch st, dc in next st) 8 times, ch 2, dc in next dc, make 9 bls and 1 sp across corner scallop.

You are now ready to make an inc of 9 sps at what will be the lower edge of scarf. Ch 2, dtr at base of last sp (to make dtr, thread over 3 times and work off 2 lps at a time), (ch 2, dtr at center point of last dtr) 8 times.

Row 11: Ch 5, dc at base of next dtr, (2 dc over ch 2, dc at base of next dtr) 9 times, continue across row working from chart through row 27.

Row 28: The work is now at the lower edge (narrow side) of scarf. Make an inc in same manner as first inc in row 10, then work across bls and sps to the opposite point (on long side). Now make an inc in same manner as second inc in row 10.

Continue following chart through (Continued on Page 12)

row 65.
Row 66: You are at the lower left cover (point) of scarf and to form corner, turn, sl st in each st across the first 9 sps, ch 5 and continue following chart through row 75, forming inc and dec as indicated.

Repeat rows 67 through 75 (the rows between heavy lines) until there are 18 points on long side of scarf. You are now at opposite corner and are ready to dec to form the second narrow end or side of scarf. To work from chart now, turn chart around, have the starting point at the left. Work from row 75 back through row 1. Fasten off.

Finish scarf off with a row of sc on all four sides.

Starch lightly, pin in true shape and press dry through a cloth.

Pan Holders

rnd. Make all pleats in same direction to form petals. Tack with red on underside of pleat, leave last rnd free. Whip stitch in place at top of pan holder.

Leaf—Rnd 1: With green, ch 18, dc in 4th st from hook, dc in each remaining st of ch, 1 turn.

Rnd 2: Sl st in each of first 4 dc, ch 3, dc in each of next 12 sts, ch 6, turn.

Rnd 3: Dc in 4th st from hook, dc in each of next 2 sts of ch, dc in each of next 12 dc, ch 1, turn. Repeat the last 2 rnds 3 times. Fasten off.

Make a second leaf in same manner except repeat rnds 2 and 3 twice.

Stem: With green, ch 24, sc in second st from hook, sc in each remaining st of ch. Fasten off. Sew stems and leaves in place as illustrated.

Buttercup Flower: With yellow, ch 5, sl st to form ring, ch 1, sc in ring, ch 3, 2 tr in ring, ch 3, * (sc, 2 tr, sc) in ring, ch 3, repeat from * twice, ch 1 in first sc. Fasten off. Make 4 more flowers in same manner.

Leaf: With green, ch 6, sl st to form ring, ch 1, sc in ring, * (ch 3, dc, 3 tr, dc, ch 3, sc) in ring, repeat from * once, ch 3, (dc, 3 tr, dc) in ring, ch 3, sl st in first sc. Make a ch about 2 inches long, cut thread, leaving a length for sewing. Work second leaf in same manner but make ch about 2½ inches long. Work a third leaf with a ch about 1½ inches long.

Stems for Flowers: With green, ch 2, dc in second st from hook, sl st in same st. This forms a knot. Now make a ch about 5½ inches long, cut thread, leaving a length for sewing. Pull this ch through the center hole of flower, have knot on outside. Make 4 more stems in same manner, having them different lengths. Sew flowers and leaves in position as illustrated. Cut off any excess length of stems.

Grapes—Rnd 1: With shaded purple, ch 8, 4 dc in st from hook, drop lp from hook, insert hook in third st of ch, pull lp through, * ch 3, sk 1 st, popcorn st (pe st) in next st (to make pc st: 5 dc in same st, drop lp from hook, insert hook in first dc and pull lp through), repeat from * once, ch 4, turn.

Rnd 2: Sl st in first lp, ch 3, sl st in same lp, ch 3, sl st in next lp, ch 3, sl st in next lp, ch 4, sl st in same lp, ch 1, turn.

Rnd 3: Sl st in first lp, pc st in same lp (always ch 3 for first dc at beginning of pc st rnd), * ch 3, pc st in next lp, repeat from * 3 times, ch 4, turn.

Rnd 4: Sl st in first lp, ch 3, sl st in same lp, * ch 3, sl st in next lp) twice, ch 3, sl st in same lp with last sl st, repeat from * once, ch 1, turn.

Rnds 5: Sl st in first lp, pc st in same lp, * ch 3, pc st in next lp, repeat from * 5 times, ch 4, turn.

Rnds 6: Sl st in first lp, (ch 3, sl st in next lp) 5 times, ch 3, sc in last lp, turn.

Women Who Make Cents

Decorative Garden Gloves

Decorative garden gloves, or gloves for casual wear are easily made and in great demand. To make them, I use cotton duck gloves (in the small size) either in colors or white for the garden gloves and the soft brown or black work gloves with the knit tops, for the casual wear ones. On the brown and black gloves, I use brightly colored wool yarn. Green and red look lovely on brown. I take a strand of each color and threading them both through the needle, I make a row of feather or wheat stitch up the middle of each finger, from the tip to the wrist band. This makes four rows of colorful stitching on the back of the glove. Then, using the same colors, I make a pompon and sew it at the wrist. For the garden gloves I use embroidery thread and either apply a green leaf on the back of the glove or just decorate it with fancy stitching, or both, to make them colorful. These are quickly made and I sell them for $1 a pair.

Pillow Slips for Babies

My mother taught me to embroider when I was a little girl and I have always enjoyed it. While I was pregnant with my own little girl I embroidered some child size pillow slips using hot iron transfers. I used cute designs of kittens, puppies and bunny rabbits and flowers in pastel colors. A friend was quite taken with them, so I made her one. A few days later she called and asked me how much I would charge some of her friends to make some. I priced them at $1.25. The pillow slips use a very well known baby brand and can usually be purchased at sales for 39 cents. Enough hot iron transfers for 6 to 8 slips come in a package for 15 cents. Embroidery floss is 3 skeins for 9 cents and goes a long way. When people want the slips more elaborate I add baby lace or eyelet and ribbon to the open end. For these, I charge about $1.75 according to the time involved. I know from my own experience that these slips wash and wear very well. Lately I have had quite a few requests for adult size slips for bridal showers, house warmings, etc. I usually have enough orders to keep my spare time occupied and pin money to spend on my little girl. Well after all, she started all this.

Dolls in Foreign Costumes

I have never had any trouble making and selling things before Christmas, such as my fancy felt and jewel stockings but this year I was determined to find something that would sell after Christmas also. This was answered in the demand for my costume dolls. I buy the eight-inch dolls sold at all dime stores, selecting blonde, brunette and red heads; these sell for about 60 cents.

Then, using a book from the library for authenticity, I dress my dolls in German, Swedish, Finnish, etc., costumes, adhering to the pictures in the book as nearly as possible. There are numerous costumes for each country as different areas of the country have distinct costume changes, thus giving me infinite variety. This keeps the work from becoming monotonous and I find it very educational as well. I collect scraps of material, lace and ribbons from friends. These dolls are small so any little scrap can be used for a kerchief or apron. Felt is used for hats and boleros or vests. Many people select costume dolls for their own collections as well as for birthday and special occasions in the life of a child. If desired, I add a short typed item about the country or province for each doll in costume of that section. I have no trouble selling these dolls for $1.50.

Cottage Cheese and Its Many Uses

June is national Dairy Month. It is a time when special attention is given all dairy products. Cottage cheese is almost as old as milk itself. Its history began thousands of years ago when an Arab trader carried milk in a pouch made from the dried stomach of an animal. He stopped his desert travels one evening to eat and drink his milk. He found instead of milk in his pouch that he had a delicious soft curd and a watery liquid. From this very simple beginning, cottage cheese has come down through the ages.

Today it is known in almost every home and every country. In Scotland it is called bonny clabber; in Italy, ricotta; in Switzerland, Schabzieger; in France, fromage a’ la pie and the Pennsylvania Dutch call it smearcase. And Little Miss Muffet called it her curds and whey.

Cottage cheese is one of the few cheeses that is still, sometimes made in the home. It takes some skill to come out with a tender, soft curd in homemade cottage cheese. You must know how to heat the milk to the right temperature, and also when to remove it from the fire.

There are countless ways of using and serving this cheese. The blender has added to this long list. It can whip cottage cheese to a smoothness that looks thick sour cream or even cream cheese. In some areas the dairies are selling already whipped cottage cheese. You can use it in baking pastries, making salad dressing, for salads, main dishes, appetizers, sandwiches and soups. In fact, we tend to almost forget how very good a dish of plain cottage cheese is. Remember when you were a child how you piled a little cottage cheese then a dot of jam on some buttered toast? It was delicious! It is just as good today; try it again. This is a good tasting food that is good for you. It contains most of the milk proteins and minerals from about three quarters of defatted milk per pound of cheese.

An average serving of ½ cup of creamed cottage cheese contains only 120 calories. The uncreamed cheese contains only 108 calories per ½ cup serving. In this amount you are getting as much protein as you would get from an average serving of lean meat or three eggs. Pot cheese is made from the curd drained off the whey but not cooked or washed. It is sometimes called baker’s cheese because it is used extensively by bakers. This cheese is often confused with cottage cheese, as it is clotted cream. Neither is the same but closely akin. Become acquainted with this oldest of the cheeses and its many uses.

Cottage Cheese with Fresh Fruit

As Shown On Opposite Page

2 cups cottage cheese
1 teaspoon salt
1 teaspoon lemon juice
1/4 cup chopped pecans
Salad greens
1 melon, cut in round slices
2 oranges
2 bananas
1 pint fresh sweet cherries or 1 pint fresh strawberries
3 pineapple slices

Add salt and lemon juice to cottage cheese. Fold in part of chopped pecans. Turn into a bowl that has been rinsed in cold water and place in refrigerator to chill. Just before serving, unmold on a large salad plate; surround with crisp salad greens or lettuce cups filled with fresh fruits, melon rounds, orange sections, banana slices (soaked in lemon or pineapple juice), pineapple sections and cherries or strawberries. Serves 6.

Cottage Cheese Potato Pie

9 thin slices white bread
2 1/2 cups mashed potatoes (about 5 medium-sized potatoes)
1 cup (8-ounces) creamed cottage cheese
1/2 cup light sour cream
1 egg
1/4 cup chopped parsley
2 tablespoons minced onion
1 teaspoon salt

Remove crusts from bread. Place one slice in center of buttered (9-inch) pie plate. Arrange remaining slices around edge to form point designs; press bread firmly against plate. Bake in 350° F. oven 10 minutes or until lightly browned. Remove from oven. Combine remaining ingredients; stir until well blended. Spread in toast shell. Return to oven. Bake about 20 to 25 minutes or until toast edges are browned. Serve hot with crisp green salad and baked stuffed tomatoes. Serves 4 to 6.

Cottage Cheese Cherry Pie

16 1 1/2-inch vanilla cookies
1 3-ounce package cherry flavored gelatin dessert
1 1/4 cups hot water
1 1/2 cups heavy cream, whipped
1 8-ounce package (1 cup) creamed cottage cheese

Arrange cookies on bottom and sides of 8-inch pie plate. Prepare gelatin dessert according to manufacturer’s directions on package using 1 1/4 cups water. Chill until slightly thickened. Carefully blend together cream and cheese. Lightly fold cheese and cream mixture into thickened gelatin. Turn into crust. Chill, until firm, about 2 hours. Top desired, top with additional sweetened whipped cream. Serves 6.

Cottage cheese has made its own place in desserts. Combine it with cherry flavor to make this Cottage Cheese Cherry Pie; it is perfect for a June dessert.

Cottage Cheese Patties
1 small onion, grated
1/4 cup finely grated green pepper
1 medium carrot, grated
2 tablespoons parsley, minced
2 cups soft bread crumbs
2 cups creamed cottage cheese (1 pound)
1/2 teaspoon paprika
1/2 teaspoon pepper
1 teaspoon salt
1 egg
2 tablespoons water
cracker or cereal crumbs
3 tablespoons butter
Mix grated vegetables into cottage cheese, then seasonings. Blend in bread crumbs. Mix well and shape into patties. Bake in water. Dip patties into egg, then into finely rolled cracker or cereal crumbs. Bake again and once more into crumbs. Melt butter in skillet and fry patties over medium heat quickly on both sides. Serve with roasted tomatoes, if desired. Makes 4 patties.

Baked Ham and Cottage Cheese
1/2 cup ham
1/2 cup cream cheese
1/3 cup soft bread crumbs
1 egg (8-ounces) creamed cottage cheese
1 egg
1 pound uncooked ground ham
Combine milk, bread crumbs, cottage cheese and egg; blend well. Mix in ham. Put into baking dish, 10x8x2-inches. Bake in moderately hot oven (375°F) until top is lightly browned, about 45 to 50 minutes. Serve with raw or pan fried apple rings. Garnish with parsley. If desired, before baking, arrange 4 pineapple slices on top and sprinkle with 2 tablespoons of brown sugar. Serves 4 to 6.

Combine cottage cheese with a split banana for a salat. This Banana Split Salad will be just as much a favorite as the famous banana split dessert.

Banana Split Salad
Banana
Lettuce
Cottage cheese
Crushed strawberries
Sour cream
Chopped nuts
Whole strawberries
Peel banana and split lengthwise. Arrange, cut side up, on lettuce. Top with two generous spoonfuls of cottage cheese. Spoon crushed strawberries and then sour cream over each mound of cheese. Sprinkle with chopped nuts and garnish with two whole berries. Serves 1.

Lasagna
1/2 cups tomato sauce
1/2 pound broad noodles
8 slices (1/2 pound) process American cheese
1 cup cottage cheese
3/4 cup grated Parmesan cheese
Prepare sauce. While sauce is simmering, cook noodles in 3 quarts rapidly boiling water with 1 tablespoon olive oil for about 1/2 hour or until tender; drain well. Pour 1/2 cup sauce into bottom of deep 8-inch square baking dish; over this place layer of noodles; a layer of cheese slices, 4 or 5; tablespoons cottage cheese and sprinkling of Parmesan. Repeat this process in layers until all ingredients are used. Top layer should be sauce and grated Parmesan. Bake in moderate oven, 350°F, 30 minutes or until firm (let stand about 15 minutes before serving). 4 to 6 servings.

Tomato Sauce: Cook 1 chopped onion and 1 minced clove garlic in 3 tablespoons hot olive oil all 3 minutes until lightly browned. Add one number 2 can tomatoes, 1 tablespoon chopped parsley, 3 basil leaves, one 6-ounce can tomato paste and pinch of sugar. Stir over low heat 1 hour, stirring occasionally. Season with salt and pepper.

**Rhubarb Chiffon Pie**
- 2 cups finely cut rhubarb
- ½ cup sugar
- ¼ cup water
- 1 envelope unflavored gelatin
- ¼ cup cold water
- 2 egg whites
- ¼ cup sugar
- ¼ cup whipped cream

Cook rhubarb with sugar and water until tender. Add gelatin which has been dissolved in cold water. Chill and when thickened, fold into egg whites which have been stiffly beaten and mixed with the whipped cream. Fold in sugar. Pour into baked pie shell and chill.

-Mrs. Herman Hansen

**Strawberry Tapioca**
- 2 cups fresh sliced strawberries
- ¼ cup sugar
- 2 cups berry juice and water
- ¼ cup quick cooking tapioca
- ¼ teaspoon salt
- 2 tablespoons lemon juice

Sweeten strawberries with ¼ cup sugar and let stand 30 minutes. Drain; add enough water to juice to make 2 cups. Combine berry juice and water, quick cooking tapioca, remaining sugar and salt in saucepan, mix well. Place over medium heat and cook until mixture comes to a full boil, stirring constantly. Remove from heat, cool, stirring occasionally. Add berries and lemon juice. Chill. Serve with cream if desired. Makes 6 servings.

-Mrs. Lesley Wallace

**Macaroni Loaf**
- 2 cups cooked macaroni (1 cup makes 2 cups when cooked)

Would you tell me the proper care for an Indian pipe plant? I have transplanted it from the woods in the dirt in which it grew, L.V., New Jersey.

Indian pipe is a saprophytic plant that lives on the dead remains of other plants. Such plants are almost impossible to develop through cultural practices. The Indian pipe, with its leafless pipe-shaped stems, requires decomposing organic matter, which through the aid of certain bacteria, makes the organic matter available as food. Duplicating, as near as possible, the conditions under which the Indian pipe was found growing is all one can do, which may or may not be successful.

When is the best time to move lilies? Can they be moved soon after blooming? Mrs. J.E.L., Minnesota.

Lilies may be moved any time when they are dormant. In the Fall, just after the foliage has died down, is the ideal time to move them. Shortly after blooming is no time to move a lily bulb. They should always be replanted as soon as possible after they are dug. They cannot stand a long period of dormancy like a Dutch bulb.

Could you tell me when to cut bittersweet? I have cut them before and after frost but when the leaves dry the berries fall off. Mrs. B.B., Pennsylvania.

Cut branches of bittersweet berries any time after the first heavy frost. Indoor heat and excessively dry air causes the berries to shatter rather quickly. They hang on the vines outdoors until late winter.

What will make my Hawaiian wood rose bloom? It is growing outside after I started it in a pot in the house. Mrs. E.G., Louisiana.

Wood roses, or Ceylon morning glories, make a rapid growth, if given heat, moisture, and a rich porous soil. If the season is long enough they bear an abundance of yellow flowers, just as a morning glory vine bears flowers. A long season is all it takes. The wood roses are the seed and seed pods that develop following flowering.

I have a honeysuckle bush which had dark pink blossoms, but now they are almost white. What has caused this? Mrs. L.W.P., Montana.

The Tartarian honeysuckle is probably the variety you have. The flowers of this variety are variable from white to pink and as the bush grows old the white flowers usually predominate. Cutting out some of the older canes at the ground, and feeding the plant will tend to produce more colorful flowers.

I have tuberous begonias in individual pots. How should I care for these during the winter months? Mrs. T.V., Maryland.

At frost time place the pots of tuberous begonias in a light, cool, airy, dry place and keep them under a south window if possible. Then turn them out of their containers and clean off all soil and store the tubers in dry peat, sand or vermiculite in a cool place where they will remain dry and above freezing. They may be stored as easily as potatoes after they are ripened. Any time after the middle of January the tubers may be repotted in rich soil and started up again. When starting them the temperature should be kept warm, 65° to 70°, until they are up and growing. They may be grown each year and there are records of the same tuber being grown year after year for 40 years. As a rule after about four years the tuber becomes large and hollow and its vitality decreases. Then it is not worth keeping.

FOR MOTHER'S DAY I received a cyclamen. It has finished blooming, and I would like to know what should be done with the plant. I have it in the house and the leaves are lovely and green. Will it bloom again? Mrs. A.E.K., California.

Your cyclamen plant may be carried through the summer and will bloom again in late winter or early spring. Keep the plant growing in a cool place with moderate shade during the summer. Usually the heat of midsummer stops its growth and many of the outer leaves turn yellow. It is resting but still alive. Let it struggle along, don't overwater or feed it. When cooler fall nights come, dump the plant out of the pot, pull off the outer flaky leaves, shake about half the dirt from the roots and repot it in rich soil. Water sparingly at first and gradually increase the water as the new leaves develop. During late fall and winter give it full light and grow it along cool, around 60°. By Christmas or shortly after it should begin to bloom.

I have Japanese iris plants which have never bloomed. I have heard they need lots of water, is this true? What are the other requirements for raising these plants? Mrs. P.O., Wisconsin.

Japanese iris should be kept reasonably moist, at all times from spring until the last of June but they don't require any excessive amounts of water. If the plants are grown in rich soil and watered adequately until the blooming season, they need no other special care. They do prefer a neutral or slightly acid soil to grow well. Avoid the use of any form of lime around them.

The rose tree that I received last spring did not green out on the upper branches. Sprouts are coming out around the bottom of the tree. Is the graft dead? I would like to know the care for this plant to prevent winter kill, Mrs. G.E.D., Indiana.

Tree roses are budded near the top of a tall understock. If the upper branches fail to green up it is ruined, for sprouts are a part of the worthless understock. Tree roses are difficult to carry over winter. Where the temperature falls below 0°, they need special protection or removal to a storage cellar. Or, in late fall the roots of the tree rose may be loosened on one side and the plant pushed over flat on the ground. It should be covered with about six inches of soil, top, trunk and roots. After danger of hard freezes is over the plant should be uncovered, straightened up and pruned.

Watch Out for Poison Ivy!

This is the time of year when poison ivy becomes a threat to all exponents of outdoor living. Nearly everyone occasionally comes in contact with this other attractive plant, as it thrives in unexpected places and under a large variety of growth conditions. The reason for this is that birds are the main distributors of the seed, and where birds roost you will find an abundance of poison ivy.

Poison ivy is not easily recognized and resembles many other plants found in backyards, fields and woods. It sometimes is found in thickets consisting only of poison ivy, but just as often is scattered among other plants and vines. Poison ivy may have three forms—trailing, vine-like or erect. Fortunately the twigs and leaves of the three forms are similar and the reaction to all will be the same.

Distinguishing features of poison ivy are the alternate compound leaves with three leaflets. The three separate leaflets are actually a part of one leaf, and the leaves, composed of the three leaflets on a stem, are joined at intervals along the twig. The leaflets vary from 2 to 4 inches in length and are egg-shaped with edges sometimes smooth and sometimes large and coarse toothed (some are even lobed). The smooth, shiny surface sometimes has fine hair.

Poison ivy leaves change color—in the spring and summer they are a colorful green, and in the fall they assume brilliant colors which range from yellow to vivid red. In late fall the gray-white fruit clusters are more noticeable.

The trouble maker which causes this ivy to be poison is a fluid, oleoresin. This fluid is contained in resin canals in the leaflets, leaf stems, twigs and bark, and has been found in the wood. One must come in actual contact with the oleoresin to become afflicted with the skin irritation and the leaves, stems or roots to be bruised before contact can be caused. However, dry poison ivy leaves are infectious, which is the reason the inflammation can be contacted while burning trash or refuse. Dogs, exposed clothing, tools, work clothes—all are carriers of poison ivy, sometimes even weeks after their contact.

Symptoms begin to show one to two days after contact with the plant. A reddening is the first skin reaction, then itching and burning and finally blisters. There are many remedies to relieve itching and dry up the blisters. Usually a reputable pharmacist or a doctor is the best person to prescribe remedies.

To eradicate poison ivy in a small area—for instance your backyard—pull out the plants by the roots it is satisfactory. Chemicals will control large areas or dense patches of plants, but also will kill other vegetation. “Hormone” herbicides are recommended. They are 2, 4-D in the salt form, 2, 4-D in the ester form and 2, 4, 5-T ester. Control may be achieved by spraying with any of these herbicides, and they offer little danger to humans or animals, and have no bad effects on the soil. Manufacturers’ recommendations should be followed closely when using these sprays.

June and July are the best time to spray plants, as this is the period when the poison ivy has the most leaves. The ivy will reappear on areas that have been cleared if not watched carefully. The poisonous fluid remains even in the dead plants, so they should be burned and handled as carefully as plants pulled out by the roots.

There are many preventive ointments available which are supposed to protect skin areas when exposed to poison ivy, but none have been proven 100 percent effective. The best method of control is to watch out for the plant, and if you do come in contact, wash carefully with strong laundry soap after exposure. Cleanliness is of the utmost importance in both prevention and control.

sun is high and spread on a table in the shade. Arrange in one-half inch layers in a storage jar with a cover, sprinkling each layer with a pinch of salt. Add petal day by day until they measure two quarts when pressed down solid. Stir thoroughly every morning.

Ten days after the last addition has been made, mix together in a separate dish: 1/4 ounce of ground mace, cloves and allspice, 1/2 ounce of ground cinnamon, 2 ounces of powdered orris root and 1 1/2 pound of dried lavender flowers.

Fill the jar with alternate layers of rose petals and this mixture and sprinkle on each layer of petals a drop of any essential oil such as rose, bitter almond, geranium, orange flower. Last, pour over the whole one ounce of any good toilet water or cologne.

Various sweet blossoms or fragrant leaves dried may also be added from time to time to renew essence.

If you have an abundance of roses, you can utilize them admirably by filling covered plastic containers (obtainable at small cost in dime stores) with this precious by-product to sell in gift shops, on roadside stands or at church and school bazaars come fall. Tied and topped with a gay ribbon rosette, they attract customers and sell easily.

Father's Day will be here before we know it, so let's work on a handkerchief folder just for him. You will need a bright piece of construction paper, about 8 1/2 inches long and 4 1/2 inches wide. Fold part of the paper up and whipstitch the edges to form a pocket. To make it very special for Dad, cut big block letters, DAD and paste onto the folders as shown. Red and black makes a very nice combination. Now tuck the handkerchief into the pocket, and watch Dad's face light up when he sees it!

add to the design with colors or paints, and paste onto the envelope corner. The bookmark slips easily over the corner of the page to keep your place. Use as a gift, or as favors for a party.

I simply must share this game with you. It was a favorite when I was a child. We called it, Captain, May I? One person is chosen captain and he is to stand before the group. All the players will form a straight line in front of him. The captain gives the commands and will tell each person what sort of step he is to take. You see, the object is to reach a certain goal. For example, the captain may tell the first person to take one giant step. He may command the second one to take ten mouse steps. But this is very important—each one, before he moves, must ask, "Captain, May I?" If he forgets, he will have to go back and wait for his next turn. As the captain is busy making commands to the others, a player may try to steal a step or two, but don't let captain see you, or you must go back! It is fun to make up silly new steps, like a kangaroo jump, duck waddle or rabbit hop. Enjoy yourselves.
Edging and Insertion in Crochet

YOU WILL need two balls of Clark's Big Ball Mercerized Crochet to make both edge and insertion; use a number 10 steel crochet hook.

Abbreviations:
- ch (chain)
- sp (space)
- dc (double crochet)
- sk (skip)
- lp (loop)
- tr (treble)
- sc (single crochet)

Edging—Braid: Starting at narrow end, ch 8.
Row 1: In 8th ch from hook make dc, ch 2 and dc, ch 7, turn.
Row 2: In ch 2 sp make dc, ch 2 and dc, ch 7, turn. Repeat second row until piece is slightly longer than edge of towel, having an uneven number of lps. Fasten off.

Heading—Now work across long side as follows: Row 1: Join thread to first lp, sc in same lp, * tr in side of next dc, ch 3, tr in side of same dc, sc in next lp, repeat from * across, ending with sc, ch 3, turn.
Row 2: Dc in first tr, * ch 3, dc in each of next 2 tr, repeat from * across, ending with dc in last sc. Fasten off.

Scalloped Edge—Row 1: Working along opposite side, join thread to first lp, ch 3, 9 dc in same lp, * in next lp make 2 sc, ch 3, (3 sc, ch 3) twice and 2 sc, 10 dc in next lp, repeat from * across. Fasten off.
Row 3: Join to top of starting ch, sc in same place, sc in next 7 dc, * sk next dc and next sc, sc in next sc, (ch 5, sc in center sc of next sc group) twice, ch 5, sk next lp, sc in next sc, sk next sc and first dc, sc in each of next 8 dc, repeat from * across. Fasten off.

Insertion—Work as for edging, making heading on both sides of braid.

Organdy Flower

Turn scraps of organdy into a dainty gardenia corsage. Cut 3 square pieces of organdy 3 x 2½ x 2 inches. Fold pieces in half, then fold in half again (see sketch). Cut in shape of heart. When opened you have 4 heart shaped petals. Apply a narrow band of clear or light pink nail polish around outside. Gather a circle in the center of each petal, thus puckering the petals slightly.

for backing, glass and white mat paper. The cloth covered plastic tape can be obtained at any stationery or variety store. It comes in a wide range of colors (it is called Mystic tape). Get your glass cut to size after deciding how much white border you want around the picture.

Cut the backing the same size as your glass. Next, attach a strong cord to the backing near the top. Use three staples and knots at each end (Photograph 2). Cut white mat the size of the glass. Mount picture on mat with glue or rubber cement. If using glue or paste, attach only along the top so it will not wrinkle (Photograph 3). Another effective method is to cut an opening in the mat slightly smaller than the picture and attach the picture to the back of the mat or to the backing cardboard. Now sandwich the picture and mat between the glass and cardboard backing (Photograph 4).

Cut strips of plastic tape ½ inch or so longer than the length and width of the picture (Photograph 5). This allows folding over at the ends. Allow about ½ inch of tape or more, depending on the size of the picture, along the edge of the glass and fold the remainder under to the cardboard backing (Photograph 6 and 7). For neat, accurate framing, first pencil lightly on the white mat the width you want the tape to frame. You can then follow these pencil lines through the glass for a neater looking job. Care must be taken, when applying the tape, that it does not touch anything before you fold it under, since it will adhere readily to anything.

Photograph 2—Attach a strong cord to backing for hanging. Put three staples at each end with knots in the cord to prevent slipping.

Photograph 3—Mount the picture on white mat paper to provide a border. The more border, the more impressive a picture.

Photograph 4—Now sandwich picture between glass and backing, making sure cord on backing is near the top of picture.

Photograph 5—Cut strips of tape ½ inch longer than width and length. Apply to glass at least ¼ inch from edge.

Photograph 6—Turn the remaining tape under. The overlap at each end will allow for folding to make a neat corner.

Photograph 7—All four strips can be applied to the glass before turning under or they can be folded under each time. Press firmly to backing.
