America Speaks Out About Its Favorite Yarn.

I have used other yarns before, but the yarn I love to work with is Red Heart. I wouldn't use another yarn for anything.

Frankie S. Campbell High Point, North Carolina

Red Heart yarn doesn't split. It has more body. It's just a better grade of material.

Sharon S. Carlson Mayville, New York

We've become very spoiled using Red Heart.

Laura Rose Laingsburg, Michigan

I have been knitting and crocheting for years and prefer your yarn because it's durable and doesn't pile, yet it remains soft.

Maria Ruggles Miami, Florida

I really like using Red Heart yarn when I do my crafts. It always looks beautiful and remains that way for years.

Mary Hutchison Kansas City, Missouri

Red Heart® has been America's favorite yarn for over 50 years. And thanks to you, we have the letters to prove it. We appreciate your letting us know how much you like the fine Red Heart quality, lustrous range of colors and outstanding value.

And your letters make us work even harder to keep your trust. As long as we do that, we know you'll look to Red Heart when you want quality yarn. Together, we've made it America's favorite.

Dear WORKBASKET Reader:

How many of you are already tired of the cold, gray skies, have "cabin fever" and are ready for the sun, even if you’re unable to leave your home and yearn for soft, warm breezes? In this issue we have attempted to bring the sun to you!

Even the transfer pattern should put you in a "sunshine" mood, ready to dream of tropical places. Who can help but smile seeing the frolicking dolphins and the happy face of Mr. Sun?

Your many letters requested more needlework be included in The WORKBASKET, so we have tried to fulfill your wishes by including three crochet projects, three knitting projects and a tatted lace in this issue, along with a few craft and stitchery items. Even if you’re not planning to vacation, begin working on these projects now so you’ll be ready for summer fun.

To put your family in the same spirit, try our fish recipes fresh from tropical isles. Not only are they delectable, but also nutritious, satisfying and low in cholesterol.

Some of you are lucky enough to escape to warmer climes during the bitter winter weather. But, for those of us who must bear the brunt of the wind and snow, thoughts of sun and bright colors are a cheerful change. These transfer patterns can be stitched or textile painted to add vacation excitement to sweatshirts, T shirts, tote-bags or any item you would like. They give happy thoughts during these dismal, cold days.

In using an iron to transfer design to material, make a test first to determine proper heat and time. First, heat iron very hot but safely below scorching. Cut a small test design and place (print side down) on material. Protect fabric by placing tissue paper, brown wrapping paper or a press cloth over design. Press, moving iron constantly over surface to distribute heat evenly. If iron is at proper temperature, several seconds are required; if not hot enough, it may take a minute or more to get a good stamping. Stamping comes off SLOWLY and is faint at first. Press until clear.

When test results are satisfactory, cut out desired design and pin or baste in place, proceeding as described.

Add a few tropical plants to the decor and achieve your own vacation in the sun.

A silken vision of one of nature's miracles...  
a Bradford Exchange recommendation

Dawn of a warm spring morning. The apple blossoms have just awakened to bask in the rising sun, when suddenly the melodic song of cardinals soars up to meet the morning light.

Created from artist Lena Liu's original silk painting, "Morning Serenade" is produced in full color under the hallmark of W. S. George Fine China. And like exceptional collector's plates that now command hundreds of dollars on the plate market, "Morning Serenade" appears to have what it takes to go up in value after the edition closes.

Not all plates go up in value; some go down. But the edition of "Morning Serenade" is strictly limited to a maximum of 150 firing days, and demand is expected to be strong. So if you wish to obtain this plate at the $29.50 issue price, the time to act is now. To order your plate—fully backed by our one-year money back guarantee—send no money now, simply complete and mail the coupon below.

**Starfish**: Each starfish may be placed as desired within the open corners of canvas between borders.

Fill in background with blue. Final brown border is worked last, which gives a stitching margin.

To assemble pillow, stitch cording (raw edges to outside) to pillow front using zipper foot. Stitch zipper between sections of back. Unzip a few inches and stitch to front, right sides together. Unzip, turn and insert pillow form.

SPLASHES OF COLOR

Each bracelet is a one-of-a-kind creation

These wooden bracelets are colorful, easy to make, lightweight to wear and so uniquely yours, no matter how many you create. You will need Walnut® Hollow Farms wood bracelets in your choice of widths, Chroma Acrylics “Jo Sonja’s”® acrylic gouache paints in aqua, phthalo blue, sapphire, brilliant green, napthol crimson, rose pink, yellow light and titanium white (or any assorted colors you choose), “Jo Sonja’s”® all purpose wood sealer and water based varnish, paintbrush with pointed tip, toothbrush, masking tape, hobby knife and fine sandpaper.

Begin by sanding any rough edges from bracelets. Be sure to wipe off all dust before applying primer coat (sealer). Apply one coat primer and allow to dry (24 hours for best results). The bracelets shown were painted using a variety of techniques. For bracelets with straight line geometric shapes, lay masking tape down on flat surface and draw lines with ruler. Carefully lift tape from surface and apply to bracelet. With hobby knife, cut away along lines in varied patterns to form a stencil. Paint open areas with desired colors.

Remove tape. Small dots of color are easily added with tip of paintbrush. Splashes of random color can be achieved by splattering with paint-filled toothbrush. Experiment with sponge textures, blow at paint through a straw or stamp with any decorative shape. When painting is completed, allow to dry thoroughly and finish with a coat of varnish, following manufacturer’s instructions for maximum results.

bonded polyester batting, regular sewing thread for piecing and basting, teal blue thread for appliqué, white quilting thread, 15-inch square freezer paper, iron, pins, thimble, needles and masking tape.

Finished piece measures 21x21 inches.

Note: Wash and press all fabrics before beginning.

Appliqué: Although freezer paper appliqué method is used here, any method may be substituted.

Step 1: Cut a 15-inch-square piece of freezer paper. Fold into eighths, shiny side in (Diagram #1).

Step 2: Center breadfruit design (Diagram #2) on folded triangle with long straight edge of design placed on long diagonal fold of paper. Trace around design.

Step 3: Cut carefully around design through all 8 layers of folded paper. Unfold to single thickness to reveal design.

Step 4: Cut a 16-inch square from teal blue fabric. Place shiny side of freezer paper design on wrong side of teal square (right and wrong sides of teal fabric may appear the same). Pin in place. With warm iron, lightly press directly on center of paper pattern to adhere to teal fabric. Remove pins before pressing entirely.

Step 5: Cut around pattern, allowing about 1/8 inch of fabric along edges.

Step 6: Cut an 18-inch square of white background fabric. Fold and lightly press into fourths and along diagonal; open. Center breadfruit design on square, paper side down and teal blue side up. Pin in place. Paper will be removed later. Carefully baste from center out, about 1/2 inch inside raw edges of design.

Use thread to match color of appliqué. Begin near center and appliqué with tiny, even, invisible stitches, folding under 1/8-inch allowance with needle continuing along edge of paper. It may be necessary to clip seam allowances in corners between leaves. Stitch around each leaf and fruit. Work from center out whenever possible.

Paper Removal: CAREFULLY make slit in white background fabric behind
each leaf and fruit. Use fingers to loosen paper from fabric, tugging gently. A blunt object may be used to loosen paper from tips of leaves and stems.

**Optional:** Slits may be stitched closed in white background fabric with loose overcast stitches.

Press appliquéd square.

**Borders:** Trim white square to measure 17-1/2 inches (including 1/4-inch seam allowances). Cut four 2-1/2x22-inch border pieces. Stitch border to each side of appliquéd block using 1/4-inch seams. Miter corners. Press seams toward square. If seam allowances of border fabric “shadow” behind white square, carefully trim slightly narrower than seam width of white fabric.

**Quilting:** Cut a 24x24-inch white backing square and press. Lay on flat surface and tape in place. Smooth 22x22-inch piece batting over it. Place appliquéd and bordered block over batting, right side up. Pin in place. Carefully baste all three layers together, stitching from center out, about 2 to 3 inches in each direction.

Quilt with white quilting thread close to edges of appliqué design. Stitch lines about 1/4 to 1/2 inch from each other on white fabric to “echo” shape of leaves and fruit. This “echo” or “contour” quilting is typical of Hawai’ian quilting and suggestive of waves, wind, foliage and other natural phenomena. Quilt along borders close to seam lines.

**Finishing:** Project may be mounted and framed as pictured, made into a pillow or bound in teal blue fabric as follows:

From remaining teal fabric, cut 3-inch-wide bias strips to make double fold binding. Piece strips to about 24 inches for each side. Trim batting to 1/2 inch larger than front. Trim backing to match front. Fold strips in half lengthwise with wrong sides together. Stitch binding to right side of top, working through all layers. Fold binding to back and whipstitch with teal thread. Miter corners.

FLOWER
AND
GARDEN

Q What shrub (besides evergreen) can be used close to the house to hide a three-foot foundation? Eaves are wide so growth will get very little moisture. I have used Mexican fire bush effectively but would like something to make dense cover all year round. O.L., IL

A No plant grows satisfactorily under an eave, but a good gardener will plant just beyond the drip line of the eave so his vigorous plants throw branches back toward the house. Japanese hollies are beautiful and quite hardy when grown in deeply-dug, peaty soil. The new dwarf barberries do well as foundation material, and such shorties as Stephanandra incisa and most of the Euonymus fortunei selections will make a handsome planting. But start them beyond the eave and let their natural spread take care of the space between the plant and the house.

Q What trees can I plant in the rear of my house? There is a sewer line from our septic system as well as the system of the next door neighbor crossing the entire backyard. F.T., WI

A Almost any tree will invade a sewer line, if it is planted very close to it. However, here are some of the trees which do not have a particularly invasive root system: almost any of the oaks, the linden, ash and (if you are interested in ornament more than shade) you might try some of the flowering trees such as the crabs or other ornamental fruit trees. It would be a good idea to avoid such trees...
as the willows, ailanthus and elms since they do have a large and vigorously growing root system.

Q What colorful tall wild flower could I plant at the edge of my woods, where there is afternoon sun? U.W., IA

A A few possibilities are beelam (Monarda didyama), blue lobelia (Lobelia siphilitica), cardinal flower (Lobelia cardinalis) — these do best in moist soil, culvers root (Veronicastrum virginicum), helenium and various fall asters.

Q What are some flowering shrubs that would make a good hedge? H.R., CA

A The smaller growing acacias make a great informal hedge row. Escallionias are good with their pink, red and white blossoms and many of the callistemons can be planted close together to form a tight mass. Their red blossoms are always attractive. Hedges should be reasonably free from care and these are.

Ease Up with ISLAND FLAVOR

Wileing away the hours under graceful palms on endless white beaches is arguably the ideal way to enjoy the tropics. But when the mainland is clad in its winter wardrobe and we can’t get away to those sun-kissed shores, a little island flavor might be all it takes to cure our winter blues.

Proceed to your kitchen and discover what a difference the exciting taste of fresh ginger can make in an old-time favorite quick-bread. Tender and slightly sweet, this Ginger Banana bread is richer than a traditional banana nut bread. The secret to its delightful peppery-spicy flavor is a generous measure of grated fresh Hawaiian ginger in the batter and in the crunchy Ginger-Sugar topping. Serve plain or with Ginger-Butter and pass assorted tropical fruit for a unique breakfast.

**GINGER TIPS**

- Fresh ginger will keep for months when tightly wrapped and refrigerated.
- For longer storage, wrap in foil and freeze. Frozen ginger grates and slices even more easily than fresh. When using frozen ginger, cut off only as much as you need. Ginger loses quality when thawed and re-frozen.
- Fresh ginger, peeled and immersed in a jar of sherry, will retain its shape and flavor for several months. The ginger will not absorb the sherry taste.
- To prepare, peel the skin with a vegetable peeler or sharp knife. Depending upon your recipe, fresh ginger may be sliced, diced, minced, grated or shredded.
- A little fresh ginger goes a long way. To get just the right ginger taste, start with a small amount, taste test, then add more if needed.

---

**Fresh Hawaiian Ginger Banana Bread**

1-1/2 tablespoons grated fresh Hawaiian ginger
1 tablespoon lemon juice
1/2 teaspoon grated lemon peel
1 cup mashed ripe banana (about 3 medium)

Peel skin from ginger; finely grate. Combine with lemon juice and peel, banana, milk, and coconut or nuts. Resift flour with baking powder, baking soda and salt.

Cream shortening and sugar until blended. Add eggs and beat until fluffy. Add sifted dry ingredients alternately with ginger/banana mixture, beating to a smooth, thick batter. Turn into greased loaf pans (two 7-1/2x3-1/2x2-1/2 inches). Let stand while preparing Ginger-Sugar. Sprinkle mixture over top of batter. Bake on first rack below oven center at 350° for 45-50 minutes or until loaf tests done. Remove from oven and let stand in pan for 5 minutes. Then turn out onto rack and let cool. Makes 2 loaves.

**Ginger-Sugar**

Toss together 2 tablespoons sugar with 2 teaspoons finely grated fresh ginger.

**Ginger-Butter**

Beat 1/2 cup softened butter with 1 teaspoon grated fresh ginger.

**Recipe and Ginger Tips courtesy of Hawaii State Department of Agriculture in conjunction with the islands’ ginger growers.**

Sewing Hints

After selecting the pattern, fabric and thread, select the right sewing machine needle. Fine fabrics should be sewn with fine needles, coarser fabrics with heavier needles.

If the sewing machine needle is put in backwards the stitches will slip.

Don't pull the fabric while sewing as it may cause the needle to bend or break.

To keep your sewing machine in good condition oil it once a month or after about 10 hours of use. Use a sewing machine oil, then run the machine for about two minutes. Wipe off any oil drippings.

Use a lint brush to keep the bobbin case and the area under the feed dogs clean. Keep the machine covered when not in use.

There are three basic types of sewing machine needles; the regular sharp, the all-purpose Golden Ball and the light ball point. The sharp needle is best when sewing woven fabrics, the light ball point when sewing on some jerseys, stretch terry cloth and velour while the all-purpose Golden Ball needle is designed for use on 80% of the fabrics available to home sewers.

Stitch diagram of random zigzag stitches.

Double

Fold belt in half lengthwise with right sides together. Stitch 1/2 inch for edge.

Seam

Turn belt to right side, placing seam in middle of back.

On both ends of belt, turn unfinished edges inside forming straight edge. Secure with hem stitch. On embroidered side of one end, sew 1-3/4-inch strip self-adhesive fastener crosswise (either side of fastener) — this can be done with narrow (3w) zigzag. Fastener should be as close to edges as possible. Note: Do not cut through both strips of fastener.

On other end sew 5-inch strip of other side of fastener by hand, beginning as close to end as possible, down inside center of belt lengthwise.

Stitch along dotted line.

Cut one 1x6-inch strip of base fabric. Fold cut edges to inside along 6-inch sides, and stitch to form piece that looks like belt loop. Lay on embroidered side of belt with 5-inch fastener and stitch as shown.

To complete, lay ends of strip over each other on inside of belt forming loose loop for opposite end of belt to go through.

**Finishing:** Cut stray threads on outer edge of embroidered area. If any zigzag patterns were stopped and started in embellished area, pull those threads to wrong side. No further anchoring is needed as all threads will be encased when belt is finished.

Where There's A Will Heirs Pay

Canton, OH (Special)
You can spend money for a Will only to have a substantial part of your assets needlessly taken by lawyers, courts, executors and tax authorities through the probate process.

Why should you avoid probate? Simple. It costs too much and takes too long. Probate also creates an “invasion of your family's financial privacy!”

Probate alone can slice up to 10% from an estate and take months or years for settlement.

In fact, the only thing worse than a Will for the average wage earner is the nightmare created by no Will at all. Because then the State decides who gets everything you own.

Now there’s a far better way to protect your estate than having only a will. A new study reveals that a Living Trust is a low-cost alternative to probating a will, even for an average sized estate.

Today you can eliminate costly, time-consuming probate and legal fees by filing a simple legal paper called a revocable Living Trust. It avoids probate attorney, managerial and court fees because there is no Will to probate. Your family suffers no expense or settlement delays. And since a Living Trust is revocable, you can change your mind at any time about trustees and who gets your assets. Unlike a Will the estate goes at once to whomever you name -- in complete secrecy.

The many advantages of a Living planners and reported in financial publications like The Wall Street Journal, Business Week, Money, to name a few. You simply transfer all your assets into a Living Trust and name yourself or anyone you want as trustees.

Lawyers charge an average of $60 for writing a will -- and then can get up to 10% for probate. It's smart to set up a Living Trust.

Working with a team of legal scholars, DSA Financial Publishing Corp. of Canton, Ohio has prepared a Living Trust Kit designed so you can easily set up your own living trust. You'll get complete instructions written in easy-to understand, step-by-step simple language. You'll also get complete guidelines on how to custom tailor your personal Living Trust so that any special wishes you may have for your estate are carried out.

It's easy to get your Living Trust Kit. All you have to do is send a check or money order in the amount of $19.95 plus $2 postage and handling or charge to your VISA/Mastercard by including account number and expiration date to: DSA Financial Publishing Corp., 708 - 12th Street N.W., Dept. W458, Canton, Ohio 44703. For even faster service call toll free 1-800-321-0888, Ext. W458. A 90 day money back guarantee is naturally offered. Do it now... while there is still time to protect your loved ones.

WORRY DOLL

To make one worry doll, you will need a craft stick, a round toothpick, 1/2 skein red embroidery floss (or color to match fabric), 1/4 skein black embroidery floss, 1-1/2 x 3-inch piece cotton fabric with small print, light pink acrylic paint, 1-1/2-inch pin back, fine tip black pen, black permanent marker and craft glue.

Paint craft stick and toothpick with acrylic paint; let dry. Cut the craft stick so that it measures 2-1/2 inches. Cut off both points of toothpick so that it measures 1-1/2 inches; paint blunt ends with acrylic paint.

Glue the toothpick to the craft stick 3/4 inch down from the curved end to form doll’s arms. Turn doll over and glue one end of the red embroidery floss to the doll’s back. Begin wrapping floss around the doll’s body in a crisscross manner: to the front over one shoulder, down around the back, to the front again and up over the other shoulder. Repeat several times. Then, without cutting the floss, wrap the arms and lower bodice section until area is well covered. Cut floss and glue the end to the back of doll.

Now, gather a 3-inch edge of the fabric around the doll’s waist to form a skirt. The bottom of the skirt should be even with the cut end of the stick. Wrap black embroidery floss around the top of the fabric to form a wide belt. Cut floss and glue the end to the back. Tie a small piece of another color floss over the belt for accent, if desired.

Make the doll’s hair by cutting several short pieces of black floss. Loop the pieces once and glue them to the top curved portion of the stick to resemble bangs. Cut four 4-inch lengths of black floss and knot together in the center. Glue knot at the top of the stick to form long hair; trim to desired length. With the fine black pen, draw facial features. With the black marker, draw half circles at the cut edge of the stick to resemble shoes. Glue pin back vertically onto back of doll. Finished doll measures about 2-1/2 inches.

After Bayer relieves your arthritis inflammation, you'll want to do this simple exercise.

Bayer® Relief for the inflammation Tylenol can't touch.

There's a painful truth about Tylenol® although it relieves minor pain, Tylenol is powerless against the arthritis inflammation that's a major cause of stiffness and swelling. For that, you need Bayer® Aspirin. Bayer relieves minor arthritis pain and, taken regularly, reduces the inflammation Tylenol simply can't touch. Which means Genuine BAYER®, Maximum BAYER®, and 8-Hour BAYER® can give you a level of relief Tylenol just can't offer. So when arthritis inflammation flares up, remember Bayer Aspirin. Anything less would be an exercise in futility.
